POSITIVELY NO CREDIT will be allowed on SET-UP UNITS or SET-UP FRAMES; SET-UP CABINETS; WINDOWS PLOUGHED for UNIQUE BALANCES; BLINDS or SHUTTERS with CUT-OUTS in UPPER PANELS; ODD or SPECIAL MILLWORK of ANY DESCRIPTION. Please do not ask to return such items.

GUARANTEE

All MORGAN WOODWORK is guaranteed to be of good material and workmanship and free from defects which render it unserviceable for the use for which it is intended. Natural variations in the color or texture of the wood are not to be considered as defects. The quality of MORGAN WOODWORK is safe-guarded while it is in our possession. To be protected by our guarantee, our products must be accorded reasonable treatment by the purchaser. They *must not* be stored in damp warehouses or placed in moist or freshly plastered buildings. They *must not* be subjected to abnormal heat or dryness. They must be properly finished and top and bottom edges of solid and veneered doors must be thoroughly painted or vanished. We will not be responsible for defects resulting from neglect of these precautions.

We agree to repair or replace (in the white, unfinished), without charge, MORGAN WOODWORK which is defective within the meaning of this guarantee. We do not agree to pay charges for finishing or installing replaced woodwork. This guarantee is not effective if goods are repaired or replaced without first obtaining our consent.

MORGAN WOODWORK

A COMPLETE LINE of WOODWORK CAREFULLY DESIGNED
and SKILLFULLY MANUFACTURED to EXACTING STANDARDS

IT PAYS TO USE THE BEST—

As Labor Costs advance, it becomes increasingly important to select millwork of the best quality obtainable. A few dollars saved by buying inferior materials are soon dissipated in the higher costs of installation. *There is a permanent satisfaction in*

USING MORGAN WOODWORK

backed by 99 years of experience. We do not claim old age is a virtue, but the fact that we have grown and grown since 1855 proves we have earned the confidence of Home Builders, Lumber Dealers and Architects.

Our Large Inventories help you select the materials best suited for your requirements.

All orders are Subject to Acceptance dependent upon availability of material. All Prices are Subject to Change Without Notice and Orders are Accepted Subject to Prices in Effect at Time of Shipment.

DISTRIBUTORS OF MORGAN WOODWORK

MORGAN COMPANY • OSHKOSH, WISCONSIN • MANUFACTURERS SINCE 1855

Wholesale to Dealers Only

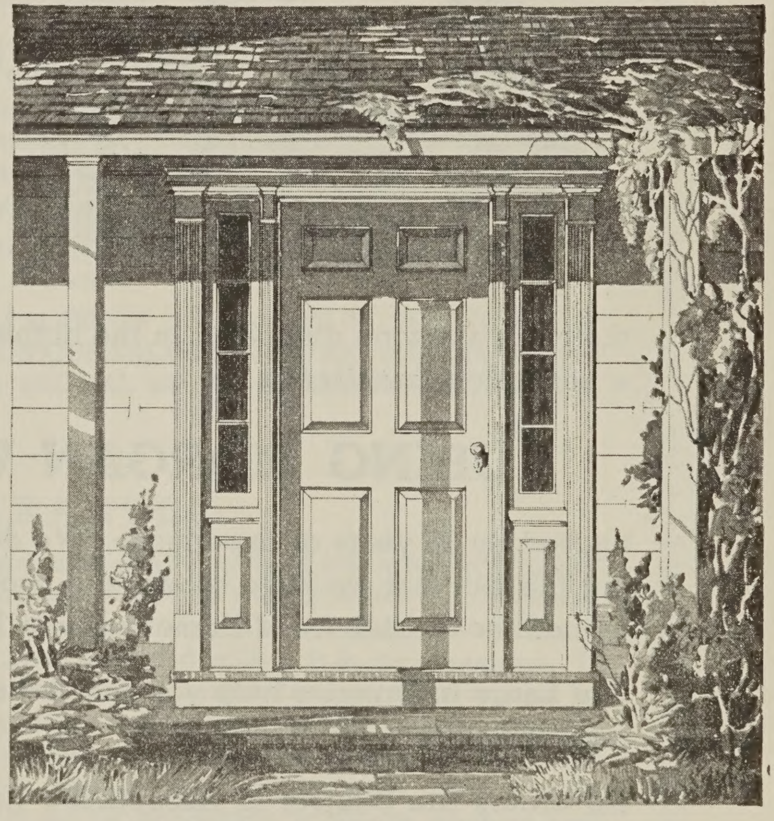
Completing a Century

As one of America's Highest Quality Standards observes its Ninety-Ninth Year, hundreds of thousands of America's residences stand as evidence of Morgan Craftsmanship in the Design and Production of Top Grade Woodwork

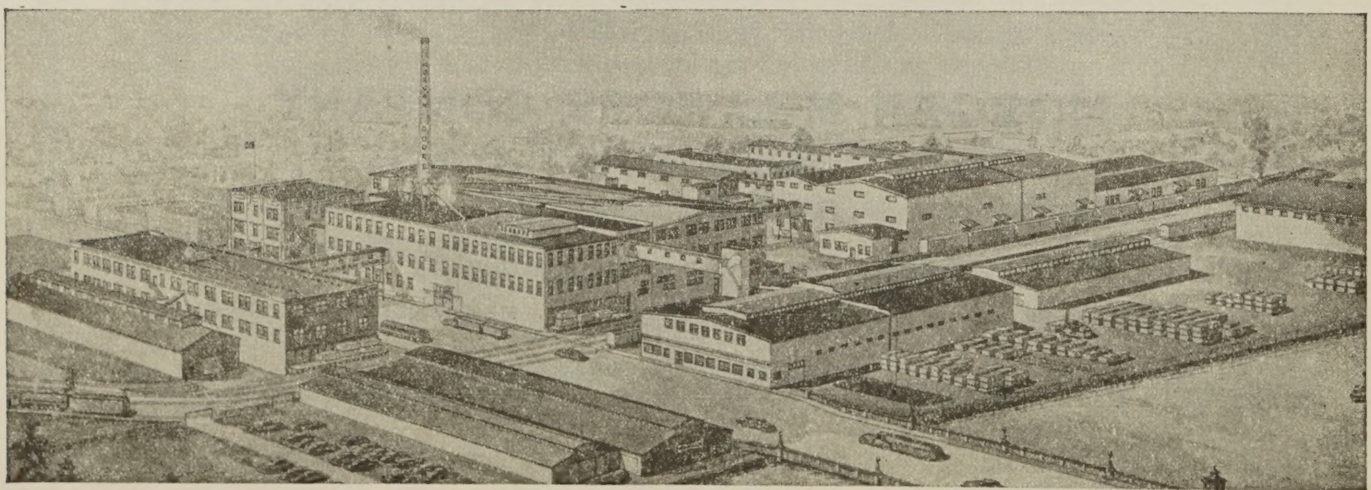
We often pause to wonder what the Pioneer's reaction would be to a modern American Home. Here is a solid structure, built to survive, like his was, yet containing conveniences he would never have thought possible. Here is the American Home, produced on a mass basis that would astonish the pioneer. His was built with the same intent, essentially by hand from the cutting of the wood to the detailing it required. His was a back-breaking, time-consuming, discouraging job, yet he established a standard and a pattern that lives today in Morgan Woodwork. He designed for Function, Beauty, Permanence. As five generations of Morgan Craftsmen have proved, we at Morgan have never lost sight of his original objectives: Function, Beauty, Permanence.

MORGAN COMPANY, OSHKOSH, WISCONSIN

Seventeen acres of highest quality woodwork production: Doors, Entrances, Corner Cases, Stairwork, Mantels, Kitchen Cabinets, Trim.

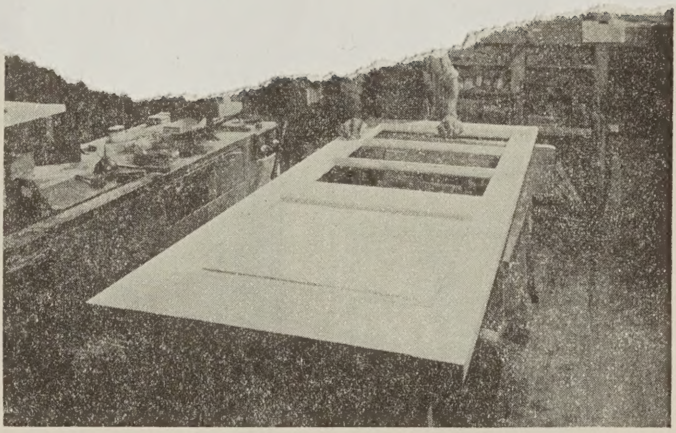


Typical of Morgan leadership in Woodwork is the Panel Door and the Inviting Entrance . . . in many variations . . . all far ahead in Function, Beauty, Permanence.



# of Service

Handwork makes Morgan Woodwork the Outstanding Line

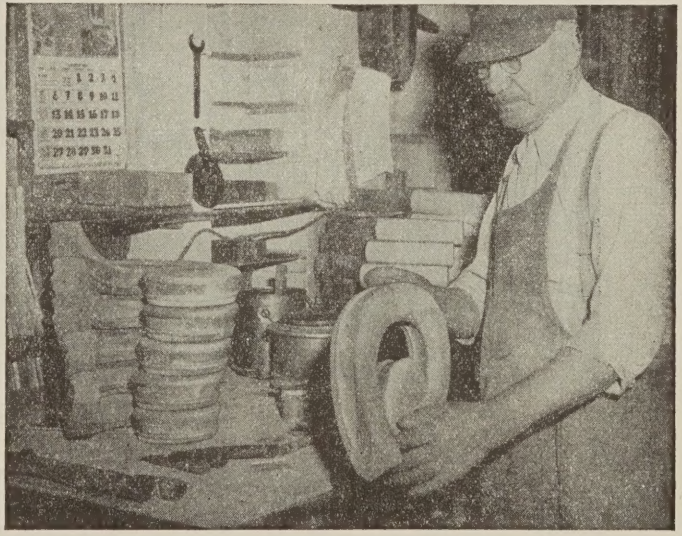


They make the best because they only know the best

As It Has Been for Ninety-Nine Years,

Morgan Woodwork is produced in an atmosphere where Quality never yields to production. We don't make it all, but we make it to last, and in so doing, we have made Morgan First. The best evidence of this is in the instant selection of Morgan Woodwork by men who know fine woodwork, by Architects, Builders, Dealers, Home Owners, everyone who recognizes that the Best in Woodwork is always the cheapest in final cost after considering the item of installation . . . and by selecting Morgan, they are never put in the position of regretting their decision.

1855 • 1954



Mine-run woodwork never gets this attention

Our Dealer's Stock and Service Department

is the most complete woodwork organization in this area, Baltimore and Wilmington. Consider this department an arm of your organization ready with the men and materials to help you sell, plan, build, deliver.

The "MAIN LINE" DOORWAY

AN OUTSTANDING DESIGN

Trim is of stylish contour, admirably suited to single and double width entrance-ways. The effect produced by the use of door M-150 with this entrance is the latest creation of Ted Kautzky, noted American architect and designer. Doors of other designs are equally effective in M-39A entrance, choose from the complete showing in this catalog.

MORGAN GOLD-SEAL WINDOW UNITS

THE IMPROVED WINDOW UNIT

A COMPLETELY PRE-FABRICATED WINDOW UNIT, FULLY ASSEMBLED, WEATHERSTRIPPED AND SASH INSTALLED IN FRAME

FOR ALL TYPES OF FRAME OR MASONRY CONSTRUCTION

SOLD ONLY AS A COMPLETE UNIT, FULLY ASSEMBLED, *INCLUDING:*

FRAME—Completely Set-up, Including INSIDE SASH BEADS ½" x 1⅛" M-8540, treated and waterproofed with WOODLIFE, a preventive of excessive swelling and a protection against decay. Jambs and Head are made from 6/4" STOCK. Entire faces of the Side Jambs covered with the new MONARCH METALANE SELF LUBRICATED RUST-PROOF METAL shaped to provide the parting beads and weatherstrips. *A Complete Metal Jamb.*

WINDOWS—Glazed S. S. B. Glass, Bedded in Putty, completely installed in Frames with Pullman Balances. Stiles and rails shaped to accurately fit the metal jambs, head and sill weatherstrips. Pressure type weatherstrip applied to check rails. Windows treated with WOODLIFE WATER-PROOFING (TOXIC ADDED) to minimize absorption of moisture.

WOODLIFE—As a waterproofing agent, is four times as effective in keeping out moisture as three coats of Linseed Oil and serves as a priming coat. GOLD-SEAL FRAMES and WINDOWS have this valuable protection all during progess of the job.

PULLMAN BALANCES—Completely installed in Head Jamb and attached to sash. Two Balances used for All Sizes up to and including 2'-10½". Four Balances used for Unbalanced Windows with 15 lights (6/9), 20 lights (8/12) and All Sizes over 2'-10½" wide. *Guaranteed for the Life of the Building.*

OUTSIDE MOULDING—1⅛" Outside Moulding furnished as standard for ALL units. 1⅜" Moulding may be had but will be charged extra. Drip Cap omitted for other than frame construction.

MULLIONS—Are only 1⅝" wide.

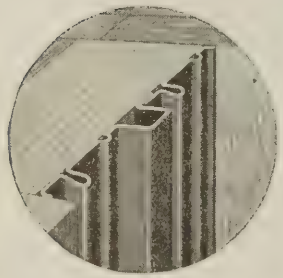
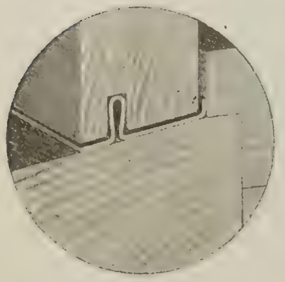
M-3516

NARROW-LINE CONSTRUCTION • "WOODLIFE" TOXIC TREATED FRAMES—WATER-PROOFED—WEATHER-TIGHT—EASY OPERATING



SIDE JAMB



SILL

The full width, full length MONARCH METALANE Rust-Proof Jambs with wood sliding in the metal *(Wood against Metal)* insures the greatest possible ease of operation and eliminates the binding of painted surfaces.

A weather-tight, rattle-proof, non-stick installation is assured because the stiles and rails of the windows are machined to member exactly with the metal jambs and the metal weatherstripping that is applied to the head and sill.

FRAME OPENING SIZES

	Stud Walls	Brick Walls
SINGLES—Add to Single Window Size......	3¾"	3¼"
TWINS—Add to Two Single Window Sizes..	5⅜"	4⅞"
TRIPLES—Add to Three Single Window Sizes	7"	6½"
HEIGHTS—Add to All Window Sizes........	6¾"	4"

IMPORTANT NOTE

Frames should be set in place during progress of work to insure best results. However, they may be placed afterward in *frame* construction, but to do this, the sheathing must be set back from Rough Studs 1¾" on each side (flush at header) to allow for wide blind stops. Use a Spreader Strip in masonry construction to keep the Frame Plumb and Square, otherwise the jambs may become "Bowed" and prevent easy sash operation. The temporary strips are removed after the walls are set.

THE NEW *Unique* WINDOW BALANCES

Better than Ever

A True Counterbalance—Not a Friction Device

Patented in United States and Foreign Countries

used in our
WEATHER-SEAL WINDOW UNITS M-3408, M-3509
and
COVER-SEAL WINDOW UNITS M-3410, M-3511

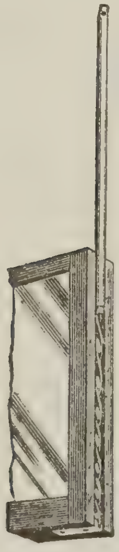
Also Sold Separately in Sets of 4 Balances

3 OUTSTANDING NEW FEATURES

NEW BEAUTY—Tubes of TENITE II, Seamless, Uniform in Color and Lighter in Weight.

NEW QUIETNESS—The New Nylon Bushing with a Tough Bearing Surface provides Quiet, Long Life Operation.

NEW PACKAGING—A sturdy Tamper-Proof Cylinder of Heavy Chip Board covered with Craft Paper and having Metal Ends assures safe delivery.

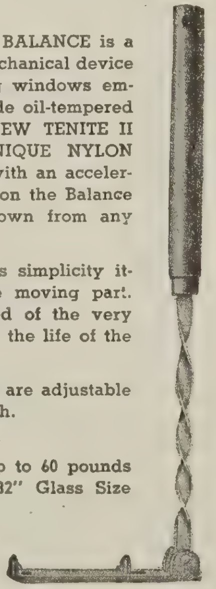


THE NEW UNIQUE SASH BALANCE is a compact, self-contained mechanical device for balancing double-hung windows employing a coiled high grade oil-tempered spring enclosed in the NEW TENITE II tube with the NEW UNIQUE NYLON BUSHING in conjunction with an accelerated rod. The sash floats on the Balance moving freely up and down from any point.

THE UNIQUE BALANCE is simplicity itself, there being but one moving part. The balance is constructed of the very best materials. It will last the life of the building.

UNIQUE SASH BALANCES are adjustable to various weights of sash.

For Windows weighing up to 60 pounds and not exceeding over 32" Glass Size Height.



STOCK GLASS HEIGHTS—12" to 32" (Even Inches) and 36".

Prices Per Set of 4 Balances

TYPE "D" (M-4712)

GLASS HEIGHTS	OPENING HEIGHTS	PER SET
Up to 30"	Up to 5-6¼	★$3.11
32"	5-10¼	★ 3.35
36"	6-6¼	3.78

ORDERS OF 100 SETS OR MORE
ARE SHIPPED DIRECT FROM FACTORY

WINDOWS ARE PLOWED SPECIAL FOR EACH ORDER AND CANNOT BE RETURNED FOR CREDIT.

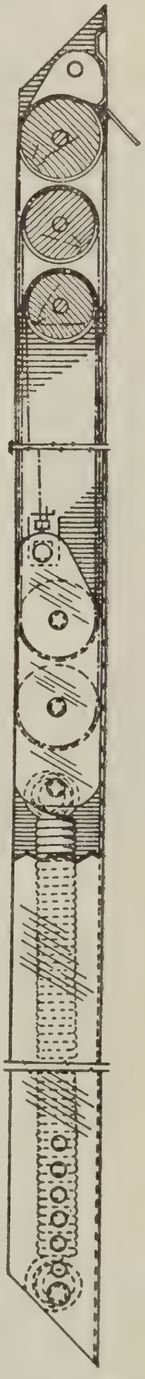
Instruction for installing Balances packed with each set.

NATIONAL *Invisible* SASH BALANCES

A Perfect Balance for All Windows

used in our
WEATHER-SEAL WINDOW UNITS M-3409, M-3510
and
COVER-SEAL WINDOW UNITS M-3411, M-3512

Not Sold Separately



Due to the Special Working required for the Windows, NATIONAL INVISIBLE BALANCES are furnished only in our complete WEATHER-SEAL WINDOW UNITS M-3409, M-3510 and COVER-SEAL WINDOW UNITS M-3411, M-3512.

SILENT—
INVISIBLE—
SELF-CONTAINED

At Right, is a Sectional View of the
NATIONAL INVISIBLE SASH BALANCE
showing the
EXTENSION SPRING
HARD MAPLE PULLEYS
STAINLESS STEEL TWISTED CABLE
All encased in a
RUSTPROOF METAL CHANNEL

THE NATIONAL BALANCE, when installed, is entirely concealed within the stiles of the window—leaving no openings at the ends. Allows full travel of each sash from top to bottom except where upper sash is shorter than lower sash.

THE HARD MAPLE ROLLERS are thoroughly impregnated with Paraffin going entirely through the wood.

THE SPRING is a special tension spring so constructed that it will carry the weight of the window for which it is designed.

THE CABLE, $\frac{1}{32}$" in diameter, is constructed of three strands, seven wires each, Stainless Steel twisted to make a very strong, durable cable. It has a 100-pound working strength, has been fully tested and will last the life of any building.

No adjustments are necessary because each Balance will counterbalance a specific size without relying upon friction.

Order your next job of
WEATHER-SEAL UNITS or COVER-SEAL UNITS

See Page 31 for Prices

A COMPLETELY PRE-FABRICATED WINDOW UNIT, FULLY ASSEMBLED, WEATHERSTRIPPED AND SASH INSTALLED IN FRAME

FOR ALL TYPES OF FRAME, BRICK VENEER OR STUCCO CONSTRUCTION

M-3509
UNIQUE BALANCE TYPE

M-3510
NATIONAL INVISIBLE BALANCE TYPE

Fully Assembled Unit Includes:

FRAME—(Same Detail as M-3507) Completely Set-up, Including Inside Sash Beads 1/2" x 1 1/8" M-8540, Treated and Waterproofed with WOODLIFE.

WINDOWS—Glazed S. S. B. Glass and Treated with WOODLIFE WATERPROOFING (TOXIC ADDED) are completely installed in Frames with either UNIQUE TYPE "D" or the new NATIONAL INVISIBLE SASH BALANCES. Pressure Type Weatherstrips applied to check and bottom rails.

BALANCES—UNIQUE TYPE "D" or the new NATIONAL INVISIBLE BALANCES (Four to Each Window) are completely installed.

WEATHERSTRIPS — Monarch METALANE WEATHERSTRIPS (Detail No. 448) applied.

OUTSIDE MOULDING—1 1/8" Outside Moulding is Standard in ALL Units. Extra Charge for 1 3/8".

Weather-Seal Provides Excellent Weatherstrip Efficiency • • • • •

COMBINED WITH QUIET EASE OF OPERATION

The simple design of the weatherstripping produces a unit which operates freely and quietly.

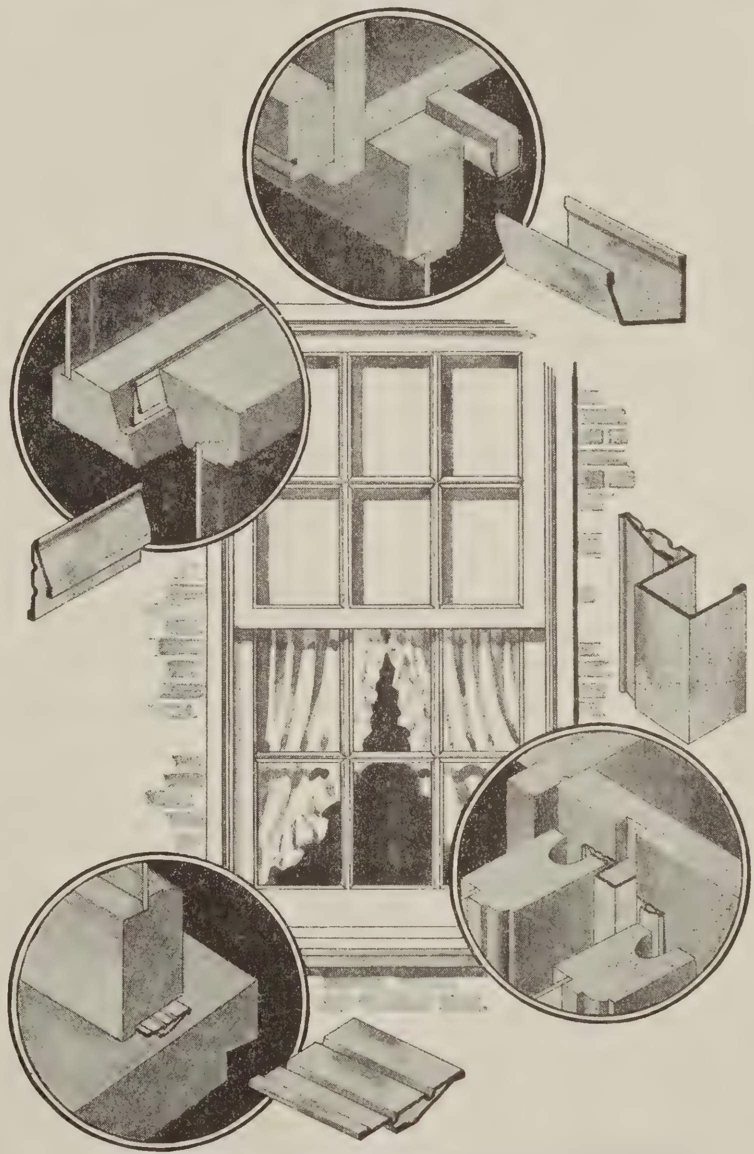
•

MetaLane Weatherstrip is used throughout.

Never rusts, oxidizes or turns black. Not affected by salt air or smoke.

MetaLane is an electro-chemically treated aluminum alloy.

The surface is sealed with a permanent lubricant which reduces friction.



Above Detail Shows Application of the METALANE* WEATHERSTRIPS
(The Metal Parting Stop Extends Full Length of Each Sash)
*Trade Mark reg. U. S. Pat. Off. Property of Monarch Metal Weatherstrip Corp., all rights reserved.

FRAME OPENING SIZES

	Stud Walls	Brick Walls
SINGLES—Add to Single Window Size......	2 1/2"	3 1/4"
TWINS—Add to Two Single Window Sizes...	4 1/8"	4 7/8"
TRIPLES—Add to Three Single Window Sizes	5 3/4"	6 1/2"
HEIGHTS—Add to All Window Sizes........	4 1/4"	4 1/8"

IMPORTANT NOTE

Frames should be set in place during progress of work to insure best results. However, they may be placed afterward in *frame* construction, but to do this, the sheathing must be set back 2 1/4" from rough studs at each side and head to allow for wide blind stops. Use a Spreader Strip in masonry construction to keep the Frame Plumb and Square, otherwise the jambs may become "Bowed" and prevent easy sash operation. The temporary strips are removed after the walls are set.

Sill	1⅝ x 7⅝ (Pitch 14°)
Mulls	1⅝ Between Sash

Sill Horns Cut Flush with Outside Moulding

NO DRIP—NO EXTENSION BLIND STOPS—NO INSIDE BEADS—See Extras

WEATHERSTRIPS—METALANE WEATHERSTRIPS either WEATHER-SEAL or COVER-SEAL TYPE are applied.

BALANCES—*TWO TYPES AVAILABLE,* UNIQUE—TYPE "D" or NATIONAL INVISIBLE BALANCES are installed.

WINDOWS—1⅜" CHECK RAIL WINDOWS GLAZED S.S.B., WOODLIFE DIPPED are installed in the frame.

FRAME OPENING SIZES

	Stud Walls	Brick Walls
SINGLES—Add to Single Window Size	2½"	4"
TWINS—Add to Two Single Window Sizes	4⅛"	5⅝"
TRIPLES—Add to Three Single Window Sizes	5¾"	7¼"
HEIGHTS—Add to All Window Sizes	4¼"	4⅞"

When Extension Blind Stops are used, Sheathing must be set back from Stud Openings 1¾" at each side and 1¼" at head.

IMPORTANT NOTICE

Frames should be set in place during progress of work to insure best results. However, they may be placed afterward in *frame* construction, but be sure the Sheathing is set back 1¾" at each side and 1¼" at head if Extension Blind Stops are used. Where the Extension Blind Stops are not ordered, no set back of sheathing is necessary. Use a Spreader Strip in Masonry construction to keep the Frame Plumb and Square, otherwise the jambs may become "Bowed" and prevent easy sash operation. The temporary strips are removed after the walls are set.

DOOR FRAMES TO MATCH, SEE PAGE 47.

PICTURE WINDOW UNITS ARE AVAILABLE. SEE PAGE 38 FOR STOCK SIZES

FOR 9" BRICK OPENING SIZES, DEDUCT ½" IN WIDTH AND 2½" IN HEIGHT FROM SIZES GIVEN FOR ROUGH STUD OPENINGS

THESE UNITS MATCH OUR GOLD-SEAL M-3516, WEATHER-SEAL M-3509 AND M-3510, COVER-SEAL M-3511 AND M-3512 AND K-SEAL UNITS M-3540

IMPORTANT NOTE—We recommend Frames be set in place during progress of work to insure best results. However, they may be placed afterward in Frame Construction, but to do this, the sheathing must be set back from Rough Studs 1¾" at each side and flush at header to allow for wide blind stops. Use a Spreader Strip in masonry construction to keep the Frame Plumb and Square, otherwise the jambs may become "Bowed" and prevent easy sash operation. The temporary strips are removed after the walls are set.

IT WILL BE TO YOUR ADVANTAGE TO CONFINE YOUR SPECIFICATIONS TO STOCK UNITS SHOWN ABOVE

WE CAN NOT ACCEPT ORDERS FOR PICTURE WINDOW UNITS FOR DELIVERY OUTSIDE OUR OWN TRUCKING AREA DUE TO THE PROHIBITIVE COST OF CRATING AND FREIGHT BY COMMON CARRIER UNLESS CALLED FOR BY THE DEALER AT EITHER OF OUR WAREHOUSES.

Cancellations not accepted after orders have once been put into work. None returnable for credit.

FOR BRICK OPENING SIZES, ADD 1½" IN WIDTH AND ¾" IN HEIGHT TO SIZES GIVEN FOR ROUGH STUD OPENINGS

ADD THE FOLLOWING EXTRAS

DRIP 1⅛" x 2", ADD	$1.50
INSIDE SASH BEADS ½ x 1⅛ M-8540, For Both Ends, ADD	1.14
EXTENSION BLIND STOPS ¾" x 2½", Reversible for ½" Sheathing, ADD	2.55

IMPORTANT NOTE—If Frames are furnished with Extension Blind Stops, at the Extra Charge, and Sheathing is applied before Frames are installed, be sure to set Sheathing back from Rough Studs 1¾" at Each Side and 1¼" at Head. Use a Spreader Strip in masonry construction to keep the Frame Plumb and Square, otherwise the jambs may become "Bowed" and prevent easy sash operation. The temporary strips are removed after the walls are set.

IT WILL BE TO YOUR ADVANTAGE TO CONFINE YOUR SPECIFICATIONS TO STOCK UNITS SHOWN ABOVE

WE CAN NOT ACCEPT ORDERS FOR PICTURE WINDOW UNITS FOR DELIVERY OUTSIDE OUR OWN TRUCKING AREA DUE TO THE PROHIBITIVE COST OF CRATING AND FREIGHT BY COMMON CARRIER UNLESS CALLED FOR BY THE DEALER AT EITHER OF OUR WAREHOUSES.

Cancellations not accepted after orders have once been put into work. None Returnable for Credit.
All sizes furnished from WILMINGTON only.

MORGAN ONE-LIGHT PICTURE SASH UNITS

SINGLE UNITS WITH ONE-LIGHT STATIONARY SASH (NO END UNITS)

Completely Assembled for 3⅝" Dressed Stud, 9" Brick (10" Finish) or Brick Veneer Construction

M-3542-P

COMPLETE UNIT, FULLY ASSEMBLED, *Includes*

FRAME—Matches our M-3516 GOLD SEAL, M-3509 and M-3510 WEATHER-SEAL and M-3511 and M-3512 COVER-SEAL Units with 1⅛" x 1⅝" Outside Moulding *(See Details pages 26, 30 and 33)*. Suitable for all types of Frame or Masonry Construction. Completely Set-up, Treated and Waterproofed with WOODLIFE.

STATIONARY SASH—Either of Three Types, one being 2⅝" Thick installed with Pittsburgh's ONE INCH TWINDOW INSULATING GLASS UNIT which Consists of TWO PIECES OF ¼" POLISHED PLATE GLASS with ONE HALF INCH DEHYDRATED HERMETICALLY SEALED AIR SPACE set in sash with a SPECIAL ELASTIC-COMPOUND TAPE. The others are Standard Sash 1⅜" Thick glazed with ONE PIECE OF ¼" POLISHED PLATE GLASS, BEDDED IN PUTTY and SECURED WITH WOOD BEADS or DIVIDED LIGHTS with WOOD BARS (13/16" wide overall), glazed with D.S.B. GLASS, BEDDED IN PUTTY. Treated and Waterproofed with WOODLIFE *(Sash Shipped Separately, our option)*.

No Weatherstriping furnished for Stationary Sash. Be sure to state which type is wanted.

M-3542-P PRICES PER COMPLETE UNIT FOR

3⅝" DRESSED STUD, 9" BRICK (10" FINISH) OR BRICK VENEER CONSTRUCTION

Be sure to State Type of Wall in which Units are to be installed and Type of Sash and Glass

NOTE—Plate Glass will be 1-1/16" smaller in Width and 1-3/16" smaller in Height than specified below for Twindow Glass. Twindow Glass can be furnished from stock only in the sizes listed and priced below.

THESE UNITS MATCH OUR GOLD-SEAL M-3516, WEATHER-SEAL M-3509 AND M-3510, COVER-SEAL M-3511 AND M-3512 AND K-SEAL M-3540 UNITS

IMPORTANT NOTE—We recommend Frames be set in place during progress of work to insure best results. However, they may be placed afterward in Frame Construction, but to do this, the sheathing must be set back from Rough Studs 1¾" at each side (flush at header) to allow for wide blind stops. Use a Spreader Strip in masonry construction to keep the Frame Plumb and Square, otherwise the jambs may become "Bowed." The temporary strips are removed after the walls are set.

IT WILL BE TO YOUR ADVANTAGE TO CONFINE YOUR SPECIFICATIONS TO STOCK UNITS SHOWN ABOVE

WE CAN NOT ACCEPT ORDERS FOR PICTURE SASH UNITS FOR DELIVERY OUTSIDE OUR OWN TRUCKING AREA DUE TO THE PROHIBITIVE COST OF CRATING AND FREIGHT BY COMMON CARRIERS UNLESS CALLED FOR BY THE DEALER AT EITHER OF OUR WAREHOUSES.

MORGAN K-SEAL CASEMENT UNITS

A low priced out-swinging wood casement providing extra convenience and maximum ventilation. Completely weatherstripped and waterproofed. Prefabricated complete with hardware and screen.

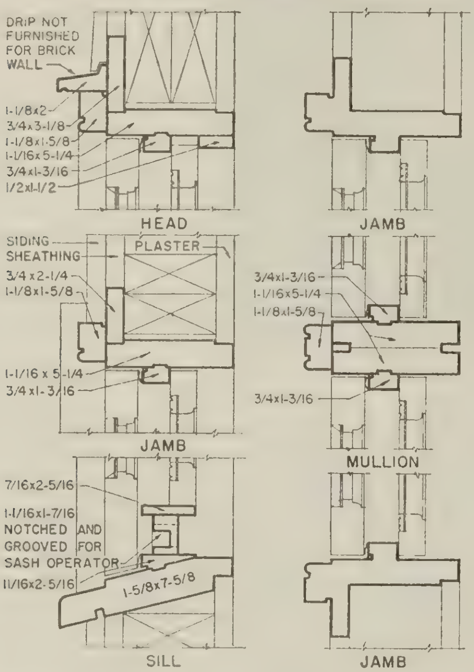
MORGAN K-SEAL Casement Units are the last word in design and utility. They are especially desirable for use over the kitchen sink. Sash are opened and closed and even locked without reaching or stretching. Maximum ventilation is assured. The Casement literally reaches out and pulls in the breeze.

Sash locks automatically in any position. The automatic Top Closer pulls sash in tightly at the top against the weatherstripping. Thus, no lock is required at the center. Sash can be operated without touching Venetian blinds or draperies.

In developing the MORGAN K-SEAL Casement Unit, so many improvements have been incorporated in it—so many conveniences added—that it is practically a new departure in the field, So economical that any house can afford it.

Available in all typical sizes. See next page.

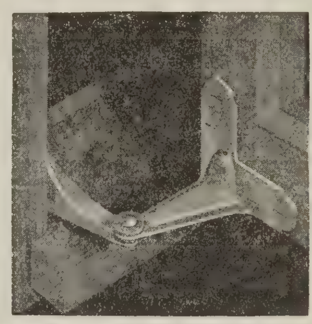
Now a WOOD Casement Unit in the Same Price Field With Steel Casements . . .



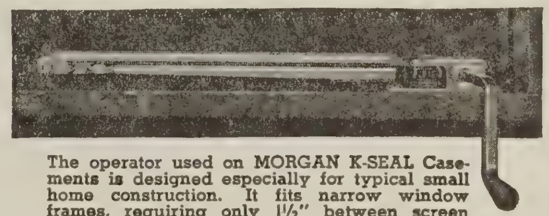
DETAIL OF MORGAN K-SEAL UNITS showing method of installing Screen and Storm Sash. Sill Assembly for Sash Operator is attached to Sill proper and permits sash opening and closing without interfering with either the screen or storm sash. The Inside Stool after being applied, forms the Screen Rabbet. INSIDE STOOL AND TRIM NOT INCLUDED.

FEATURES OF MORGAN K-SEAL CASEMENT UNITS

- A—Completely pre-fabricated, weatherstripped, hardware attached.
- B—For all types of Frame or Masonry construction.
- C—Treated with Woodlife to retard decay, minimize blue stain, reduce absorption of moisture.
- D—Equipped with nationally known, dependable hardware. Worm-gear operators. Hinges with reinforced corner joints.
- E—Extension hinges make it easy to clean sash from inside.
- F—Exterior appearance matches Morgan Gold-Seal Units, Weather-Seal and Cover-Seal Units.
- G—Inside screens do not have to be touched to operate sash.
- H—Weatherstrips of long-lasting, rust-proof MetaLane.
- I—Inside sills are entirely free of obstructions. Worm-gear operator works beneath stool. Excellent for Venetian blinds.
- J—Multiple Units have narrow mullions between sash—only 2⅛" wide.
- K—Glass Bedded in Putty.



A MORGAN K-SEAL Casement equipped with extension hinges will support a full-grown man without causing any mechanical defect in the hinge or allowing sash to sag. This is as much as a 200 lb. downward pressure on the hinge.

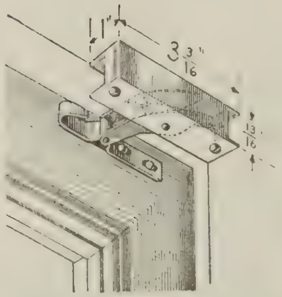


The operator used on MORGAN K-SEAL Casements is designed especially for typical small home construction. It fits narrow window frames, requiring only 1½" between screen and sash.

CHART OF STANDARD OPENINGS WITH SASH 4-LIGHTS (2-W) AND 6-LIGHTS (2-W).

3 HORIZONTAL LIGHT SASH WITH GLASS SIZES 16" x 10" AND 16" x 12" ALSO AVAILABLE.

SEE NEXT PAGE FOR COMPLETE LISTING OF STOCK SIZES.



The Top Closer above automatically closes the sash snugly against weatherstripping.

Easily Adjusted for All Types of FRAME OR MASONRY CONSTRUCTION
By Simply Reversing the Inside Grounds

M-3507

INCLUDING ½" x 1⅛" INSIDE BEADS

For UNIQUE or NATIONAL INVISIBLE SASH BALANCES, BALANCES EXTRA

NO POCKETS—NO PULLEYS—NO WEIGHTS—NO CORDS

With 1⅛" x 1⅝" Outside Moulding—For Regular Stock 1⅜" Check Rail Windows
BUNDLED—Widths and Heights Separately

Detail shows Typical Frame for FRAME or 9" BRICK CONSTRUCTION. *SIMPLY REVERSE GROUNDS FOR BRICK CONSTRUCTION.*

Note the WIDE BLIND STOP forming a perfect windbreak and assuring a tight joint with the wall.

The 1⅛" OUTSIDE MOULDING permits the use of 1⅛" Blinds, 1⅛" Screens and Storm Sash.

1⅜" Outside Moulding can be furnished instead of 1⅛" at an additional charge.

Sill Horns 2⅛" which are the proper length for 1⅝" O. S. Mouldings. Wide O. S. Casings will require special horns and will be priced special.

WOODLIFE

The Original WATER REPELLENT PRESERVATIVE

CONTAINING PENTAchlorophenol

WOODLIFE is the original Water Repellent Preservative for wood. Meets highest standards—widely used throughout the Millwork Industry for preservative treating. Protects wood against excessive moisture absorption resulting in swelling, shrinking, warping and checking. Guards against fungus decay (rot), termites and other wood-destroying insects. Excellent base for paint, varnish and enamel. Adds to the life and beauty of all wood products.

WOODLIFE is a proven, practical treating solution, laboratory developed and time tested over a period of 30 years.

The Complete
Wood Preservative!

For Home and Farm Use

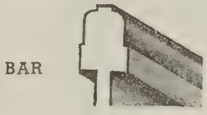
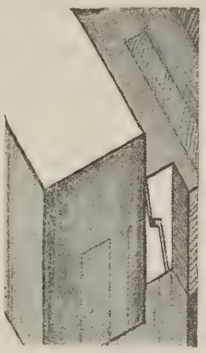
MORGAN PRE-FIT WINDOWS

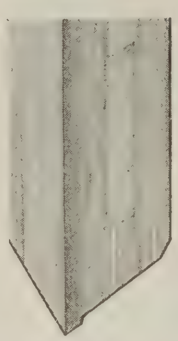
ALL MORGAN CHECK RAIL WINDOWS ARE PRE-FITTED FOR MORGAN STANDARD FRAMES

1/8″ Allowance in Width
1/16″ Allowance in Height





NOTE: NOTCHED CHECK RAILS FOR ½″ PARTING BEAD



BOTTOM RAILS BEVELED 9° OR APPROX. 2″ PER 1′ AND WORKED

ORDER MORGAN PRE-FIT WINDOWS AND SAVE COST OF THIS WORK THAT DOES NOT NOW HAVE TO BE DONE ON THE JOB—SAVES TIME, TOO.

WINDOWS BEDDED IN PUTTY

RECOMMENDATION—

All 1⅜″ Check Rail Windows should have the glass BEDDED IN PUTTY, particularly those with horizontal bars. This is because people will often use these bars in operating the sash, sometimes resulting in breaking the putty seal (of regular glazing) away from the glass at the bars. For this reason, no matter how perfect the original glazing job may be, windows Not Bedded in Putty *can not be guaranteed against leakage.*

Please note Extras for Glass Bedded in Putty—a small amount to pay for such valuable insurance against leakage.

SPECIFY WINDOWS BEDDED IN PUTTY ON YOUR ORDERS

Note—All windows furnished in our GOLD-SEAL UNITS have the glass BEDDED IN PUTTY.

Why WOOD *Window Units*

20 REASONS

1. **BEAUTY**—the many styles of wood windows enable you to have correct architectural beauty and design for your home—easily and at low cost.
2. **WEATHER-TIGHTNESS** — precision-made wood windows and modern weatherstripping are the ideal combination to keep cold, heat and dust out of your home.
3. **REDUCED CONDENSATION** — Wood windows have a natural insulating value—because wood is a non-conductor of heat or cold. Wood window parts discourage the gathering of moisture and condensation, which is often the cause of damage to costly draperies, curtains and inside walls.
4. **DURABILITY**—wood sash do not rust, and remain unaffected after long periods of exposure to such corrosive elements as salt, sea and chemically laden air.
5. **RESIST STICKING**—all buildings, especially when new, settle slightly, often enough to throw windows out of line and cause sticking. Readjustment of wood windows to operate smoothly again is done quickly and economically.
6. **QUIET**—because wood does not readily transmit sound, wood windows discourage rattling due to vibration.
7. **LONG LIFE**—modern scientific treatments, when applied to wood windows, give them still further resistance to decay, stain, termite attack and swelling caused by moisture.
8. **EASY TO ATTACH FIXTURES**—window fixtures required for venetian blinds, curtains and draperies are readily applied to wood windows with simple household tools.
9. **WIDE SELECTION**—wood windows come in many sizes and designs. These stock design windows are built to fit standard openings—being made of workable material, they are quickly adjusted to fit the opening.
10. **RESIST TEMPERATURE CHANGES**—under changes of temperature, wood windows resist expansion or contraction.
11. **RESIST ACID FUMES**—wood windows are not readily affected by acid fumes and other similar conditions often found in the air.
12. **TAKE ANY FINISH**—wood windows readily take any decorative finish, and can be refinished from time to time. They can be painted, enameled, stained, or natural finished.
13. **HOLD FINISHES LASTINGLY**—well seasoned wood window surfaces form a natural bond for paint and other types of finish.
14. **STORM SASH AND SCREENS READILY FITTED**—standard wood window frames will accommodate wood storm sash and screens without additional framing expense. Storm sash are guaranteed fuel savers.
15. **QUICK, EASY INSTALLATION**—as wood window units can be fitted to the openings after most of the rough construction work has been completed, there is little chance for them to be damaged during construction activities.
16. **SHOCK-ABSORBENT**—wood windows have a shock absorbing quality which minimizes glass breakage as the result of a sudden jar or unusual strain.
17. **EASILY REGLAZED**—wood windows can be reglazed quickly and economically in case of broken lights of glass. The problems of cold weather glazing are lessened when wood sash are used, since wood is a non-conductor of cold.
18. **HEAT RESISTANT**—Because wood does not twist or expand readily under intense heat, breakage of glass in such conditions is lessened.
19. **SIMPLE, EASY REPLACEMENT**—Because wood is a workable material, parts which are accidentally damaged can easily be replaced.
20. **SAFETY**—in case of fire, wood windows still provide a means of exit because they do not twist or buckle, and thus are readily opened.

GOOD WOODWORK DESERVES GOOD TREATMENT

No matter how well woodwork is made, it can be ruined by improper installation and handling. In this case, the manufacturer is at a disadvantage because he has no control over the usage and treatment of his product after it leaves the factory. Abuse of woodwork is apt to lead to trouble which, too often, is blamed on defective manufacture.

By observing a few simple precautions, you can make sure your Morgan woodwork will give a lifetime of service and satisfaction.

Pointers of Woodwork Care

DOORS—

1. Doors should be painted or finished as soon as they are fitted or installed.
2. The top and bottom edges should receive at least two coats of good paint or varnish and should be kept painted to resist moisture.
3. Three hinges per door are advisable and all hinges should be in true alignment.
4. Hinges should be set flush with (not deeper than) the edge of the door.
5. Weather stripping all exterior doors gives added temperature control to your home.
6. In our colder climate use a combination door on all exterior doorways.
7. In a new home having plaster walls, leave interior doors open (and windows, too, if possible) so as to ventilate rooms thoroughly until the plaster is dry.

WINDOWS—

1. Keep the channel and weather stripping of double hung windows clean as this will permit the sash to slide freely. Weather stripping must not be painted.
2. Raise or lower your windows by using the window lifts.
3. Paint should overlap slightly on the glass to seal the joint between the putty and the glass.
4. With a new window, wait until putty and paint are thoroughly set before cleaning.
5. In our colder climate, use storm sash to eliminate excess condensation on the inside of the window glass.
6. In areas where termites, fungi growth or heavy moisture prevail, windows, Woodlife treated, provide added resistance against such conditions.

NOTE: *WOODLIFE,* THE COMPLETE WOOD PRESERVATIVE, IS NOW STANDARD FOR *ALL MORGAN* ENTRANCES, WINDOW UNITS, WINDOW AND DOOR FRAMES, BLINDS AND SHUTTERS, PINE EXTERIOR, CASEMENT AND SASH DOORS 1¾" THICK, PINE INTERIOR DOORS M-1050, M-1051, M-1070 AND M-1073, FULL LENGTH SCREENS AND SCREEN DOORS.

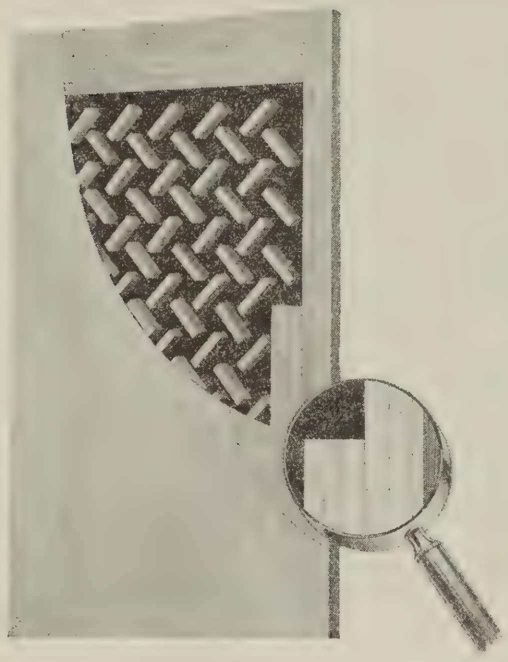
An Outstanding Exterior Door!

MORGAN TEE-COR---*Built for Years of Service*

ATMOSPHERIC CONTROL

The uniformly spaced truss block field of the Morgan TEE-COR Door creates a completely free and uniform atmospheric condition throughout the entire inside area, stabilizing the door.



Here's how the Morgan Pine Exterior TEE-COR Door

RESISTS STRESS AND STRAIN

from Every Direction

First, the TEE-COR has many times more glue area than conventional flush hollow type doors. The unique Exclusively Morgan truss block pattern is so arranged to resist force *laterally, longitudinally,* and *diagonally*

MORE STURDY BUT LIGHTER IN WEIGHT

The diagonal truss blocks are permanently secured to both facings, and the faces are sealed with waterproof glue, as your assurance against interior damage from moisture transmission. This pre-tested block arrangement gives the stability required for resistance to strains in transit, handling, hanging and operation.

3/16" FACE VENEER SUITABLE FOR V-GROOVES

Here is a Pine Flush Door with ample thickness on both faces for decorative patterns of V-Grooves . . . any design or any direction.

MORGAN
TEE COR ®
FLUSH DOOR

M-4250—No. 1 PINE

WATERPROOF GLUE THROUGHOUT
WOODLIFE DIPPED

3-0 x 6-8	1¾	$39.59
3-0 x 7-0	1¾	41.11

Can be "V" Grooved to Any Pattern at Extra Cost

EXTRA WIDE TOP AND BOTTOM RAILS

A full length 2⅞" wide edge strip, plus three rows of segmented pieces thoroughly pressure-sealed with waterproof glue.

3" STILE FULL HEIGHT OF DOOR

With laminated-segment construction plus extra thick edge strip for planing or lock mortising bonded with waterproof glue. Seasoned kiln-dried pine is used throughout the Morgan TEE-COR Door.

TWO-PLY PINE FACE VENEERS

Full 1/16" cross band veneer applied under 3/16" face veneer with beautiful grain, sanded satin smooth for natural finish if desired, or it provides a flawless surface for painting. TEE-COR Door face veneers permit any V-groove pattern desired.

CROSS BANDING FOR EXTRA STRENGTH

. . . bonded to the face veneer with waterproof glue, to resist dimensional strain. Entire inside surfaces of both panels are sealed against moisture. The complete door is "Woodlife" treated. A truly weather tight door. The Morgan TEE-COR Door is *the perfect choice for exterior use.*

FULL 3-FOOT LOCK BLOCK

On Both Sides for Right or Left Opening
This is a 3" lock block built up with pressure-sealed, waterproof-glued segmented pieces. This ample width (in addition to 3" stile) and 3-foot length permits any desired location of all types of plain or decorative locks and knobs, vertically or horizontally.

**Especially Designed

MORGAN TEE-COR INTERIOR FLUSH DOOR

HARDWOOD VENEERS—HOLLOW CORE

M-4280

Entirely New, Advanced Flush Door Construction!

Morgan TEE-COR Interior Hollow Core Door is scientifically engineered and is the perfected product of years of research and practical usage tests.

The core of this door is set in a precision pattern to mathematically equalize all stresses thus creating an accurately balanced construction and a finished door of non-paralleled stability and perfect face smoothness.

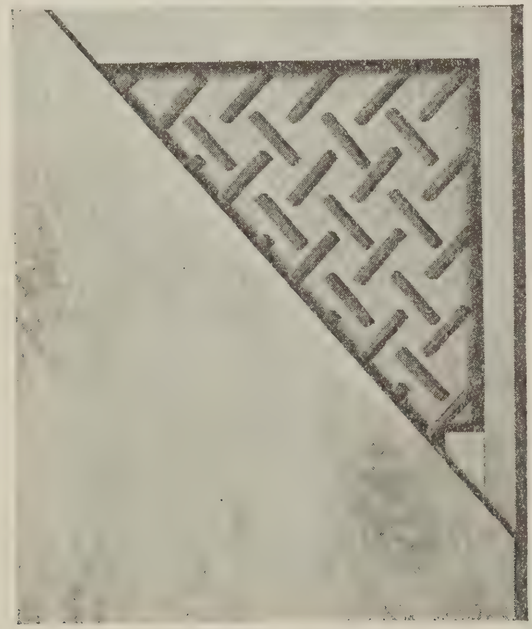
Urea resin application on inside surface of panels protects door against possible distortions due to moisture absorption.

MORGAN TEE COR ® FLUSH DOOR PAT. PEND.

STRUCTURALLY SOUND! Scientific Engineering, Diagonally spaced wood fiber block core equalizes all stresses—Crosswise, Lengthwise, Diagonally.

Combines advantage of lighter weight plus maximum rigidity and strength.

Glue of finest quality used throughout entire construction. Also seals inside faces of panels.



MORGAN WOODWORK

Leading laboratory technicians on wood products confirm the soundness of all construction factors of Morgan TEE-COR.

Light Ray Tests Prove Perfection of TEE-COR Construction

New exclusive Morgan light ray tests are used during sanding operation of Morgan TEE-COR, assuring ultra-fine smooth finishing surfaces of door.

Morgan TEE-COR is the highest quality hollow core door construction we know of today. Morgan uses the most up-to-date line assembly operation, the latest electronic gluing equipment designed and built especially for Morgan to manufacture TEE-COR Doors.

TEE-COR HOLLOW-CORE FLUSH DOORS

LIGHT WEIGHT—TWO LOCK BLOCKS IN EACH DOOR

The Two Lock-Blocks (one on each side) Permit Hanging the Door from Either Edge. Clear Softwood Frames.

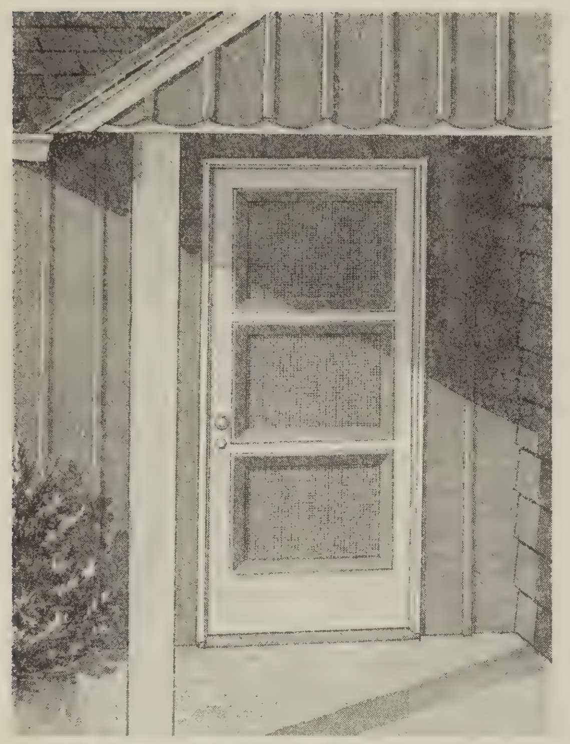
The CONTINENTAL STYLIST

the Original All-Weather Decorator Door



Introducing an exciting *new Combination Weather Door*—THE CONTINENTAL STYLIST—a true decorator door of three equal panel design. Styled to blend with any type architecture—*Traditional, Contemporary or Modern*—it is a Combination Door that gives both new utility and new personality to the home.

To add to the beauty already present in its well-balanced proportions and soft shadow lines, the STYLIST lends itself to a wide variety of challenging color combinations. Here is an all-weather door that all home owners will welcome—a door that will give that "New-Look" to any home, old or new.

The Storm and Screen panels are easily interchanged. For partial ventilation in mild winter weather, a screen panel may be combined with two glass panels. Out-of-season panels require only small storage space.

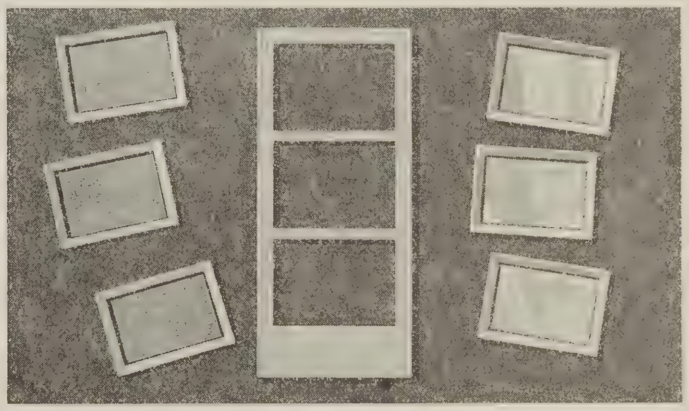
SPECIFICATIONS

Kiln-dried Ponderosa Pine treated with Woodlife Toxic Water Repellent. Mortise and Tenoned construction.

DOOR—1⅛" thick. Stiles and Top Rail 4⅛". Cross Rails 2⅜". Bottom Rail 10⅝". Net overall size of door 1" wider and 1½" higher than nominal door sizes to allow for fitting.

GLASS INSERTS—1¾" thick. Glazed SSB, Bedded, Wood Beads.

SCREEN INSERTS—1¾" thick, 18x14 Mesh Aluminum Wire rolled in groove. Flush Mouldings.



Outstanding durability is built into this combination door. The three-insert design permits the use of two cross rails giving the door and inserts unusual rigidity and strength.

STAIRWORK *of Precision Manufacture*

...SKILLED CRAFTSMEN PRODUCE MORGAN STAIRWORK

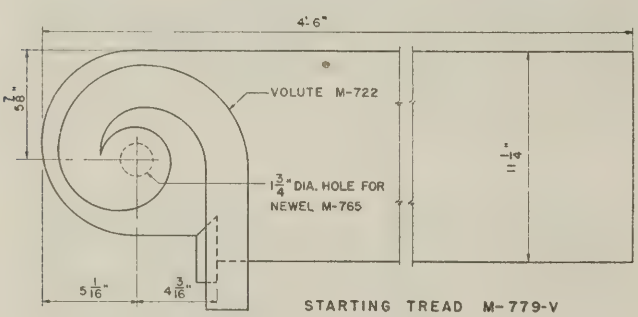
Rivaling the skillful designs and superb workmanship of outstanding 17th and 18th century American woodcarvers, Morgan Master Craftsmen, with great patience and trained hands, create for today's homes gems of stairwork design. Each piece of Morgan stair material is precision made and a perfect specimen of good designing and superb manufacture — a combination that produces truly beautiful, sturdy stairways. Morgan is nationally recognized as one of the foremost manufacturers of stairwork in the United States.

A COMPLETE LINE—EASY TO FIT

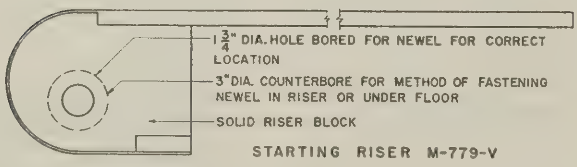
The Morgan line of Stairwork includes the necessary parts to build all standard types of Stairways and comes to the stair builder in heavy cardboard cartons thus assuring good clean stock. Made of properly kiln dried Lumber and manufactured to a satin-like smoothness.

Architecturally Correct . . .

Morgan Stairwork is architecturally correct to the finest detail. All parts of the line are precision made to fit together perfectly producing Stairways of excellence.



STARTING TREAD M-779-V

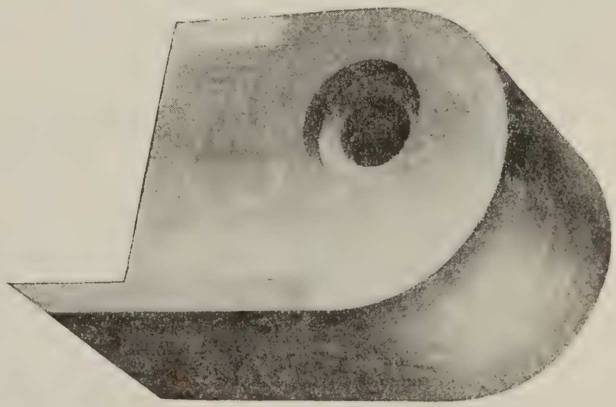


1 3/4" DIA. HOLE BORED FOR NEWEL FOR CORRECT LOCATION
3" DIA. COUNTERBORE FOR METHOD OF FASTENING NEWEL IN RISER OR UNDER FLOOR
SOLID RISER BLOCK

STARTING RISER M-779-V

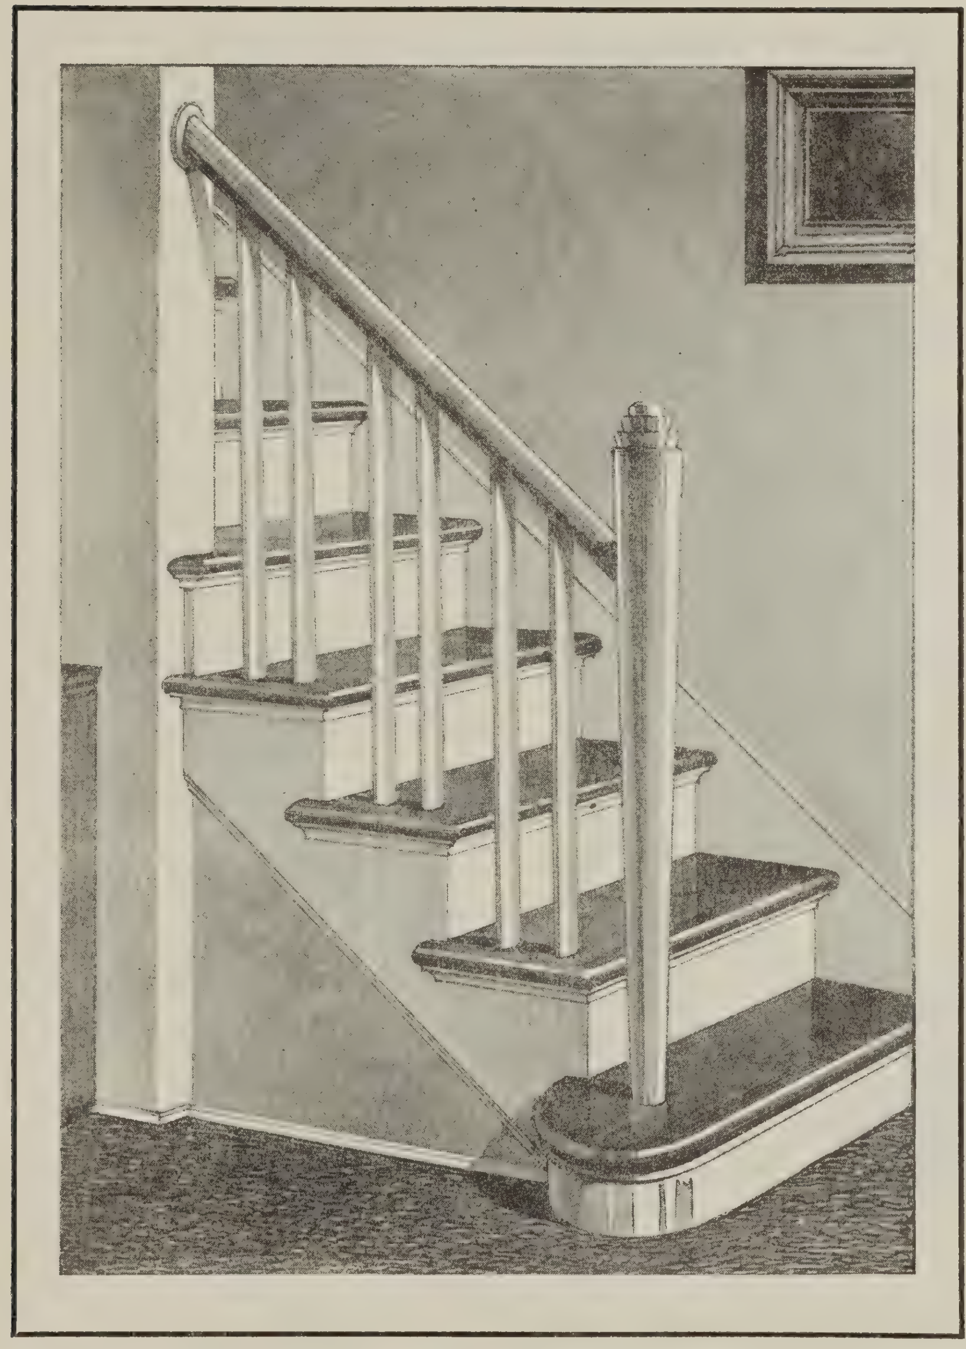
Morgan Starting Treads and Risers are of superior construction. Treads are perfectly machined to be reversible right or left with 1¾" dia. hole bored for correct location of Newel. Also pattern of Volute marked on Tread for correct location of Balusters under Volute. Risers are of ¾" stock cut back to ⅛" veneer for bending around solid Circle Riser Block. Bored for Newel and counterbored for fastening Newel in Riser if desired. Solid Riser Block eliminates splitting or checking of veneer which is bent around Circle End, also loosening of Newel or squeaks. Years of experience have proven this to be the most satisfactory construction.

Like the Master Craftsmen of old, workmen in the Morgan factory are skilled artisans and spare no amount of careful hand work to produce a perfect product.



MORGAN EXTRA QUALITY

Study carefully these three cuts of Morgan Starting Step M-779V for Volute type of stairway. Note the Solid Riser Block over which the riser veneer is securely glued and the factory bored holes for proper placement of the newel. This is just another Morgan feature that shows why Morgan gives you more.



M-849

A
SERIES OF BEAUTIFUL STAIRWAYS

. . . Styled for

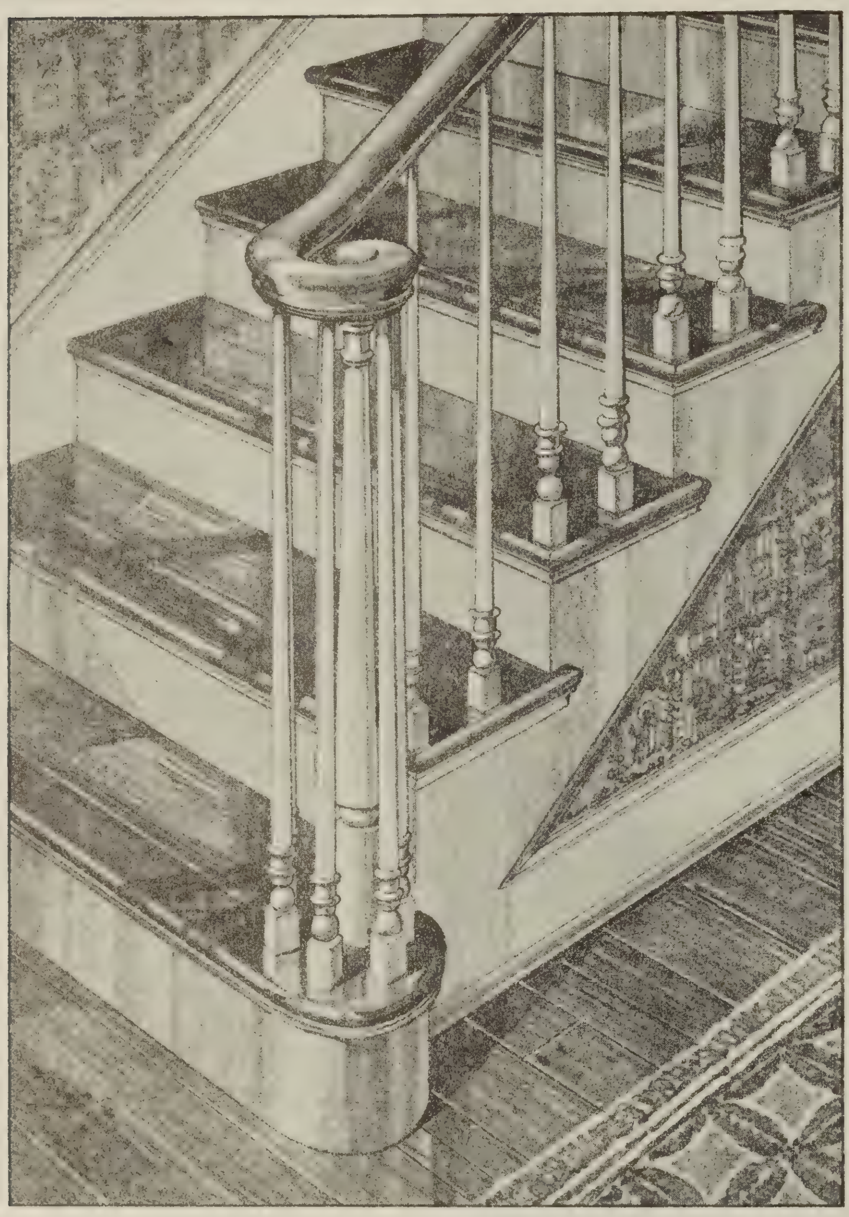
TODAY'S HOMES

On this and the following pages are shown a few examples of the interesting varieties of stairways possible to produce with Morgan Stair Parts.

A stairway to be well designed must consist of graceful, well proportioned, perfectly matched parts made of smoothly finished enduring woods. Such a stairway reflects the good taste of its owner and is a source of lasting joy.

Around the stairway the whole scheme of interior finish and decoration is usually developed. A beautiful stairway encourages a beautiful interior. Understanding this, one can readily appreciate the importance of carefully considering every factor that enters into sound stair building, both from the standpoint of serviceability and lasting design.

MORGAN STAIRWAYS



M-856

STAIRWAYS OF CHARM

. . .

Easy on the Eye
Easy to Ascend!

The keystone of an interior in rare good taste is a stairway of staunch simplicity and graceful sweep. Such a lovely stairway is yours today! You can have *all* of the advantages of correct design, accessibility and durability in the stairway for your home by selecting Morgan precision made, stock stairwork — and the cost will be well within the bounds of your budget.

The CORNWALL HOUSE STAIRWAY—Connecticut

An eighteenth century Stairway of rare charm. A graceful Colonial adaptation well suited to present-day homes of traditional architecture.

The suggested Starting Section shown above includes:

M-779V Starting Step—M-765 Starting Newel—M-722 Volute—M-720 Rail (2¼"x2⅜")—M-892 Balusters.

(ALTERNATE—M-780 Starting Step—M-895 Starting Newel—M-719 Volute)

Your stair builder will tell you exactly what Morgan stair parts are required to meet your particular stair building problem.

The TREADWAY STAIRWAY

New! — A modern stairway of smart styling by Kautzky, one of the nation's foremost designers. Newel, Balusters and Rail beautifully coordinated in design. Neat and up-to-the-minute, in the best of taste for today's modern home.

The suggested Starting Section shown above includes:

M-820 Rail ($2\frac{1}{8}$" x $2\frac{1}{8}$")—M-800 Starting Newel—M-840 Balusters —Starting Step M-830.

The FLEETWOOD STAIRWAY

Another Kautzky original by Morgan! In rare good taste. Perfect for any contemporary American environment. Modern stair design in its simplest form yet with a wealth of charm.

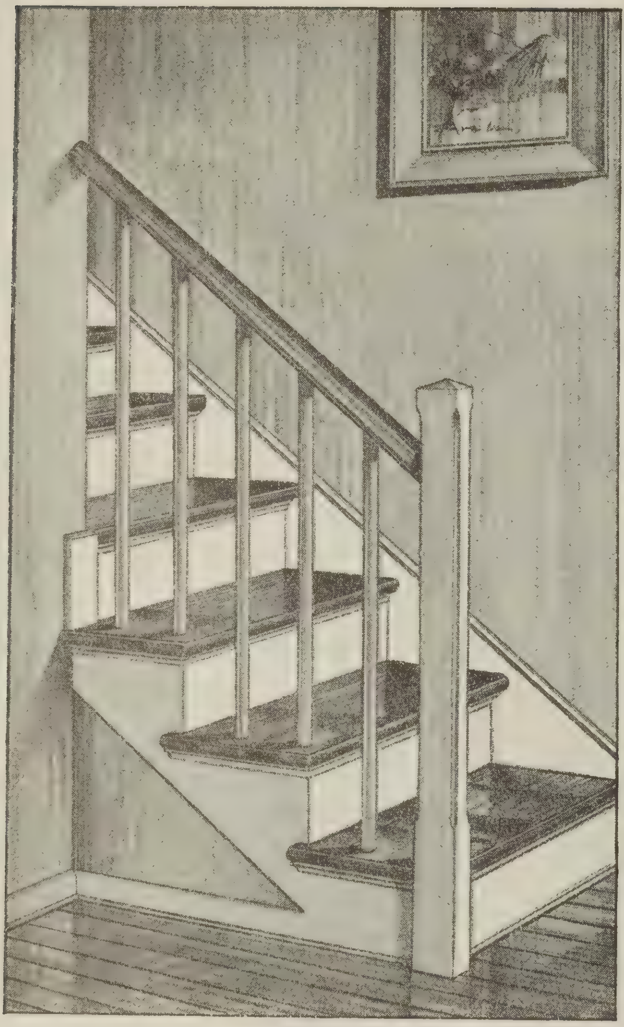
The suggested Starting Section shown above includes:

M-820 Rail ($2\frac{1}{8}$" x $2\frac{1}{8}$")—M-801 Starting Newel—M-840 Balusters —Starting Step M-830.

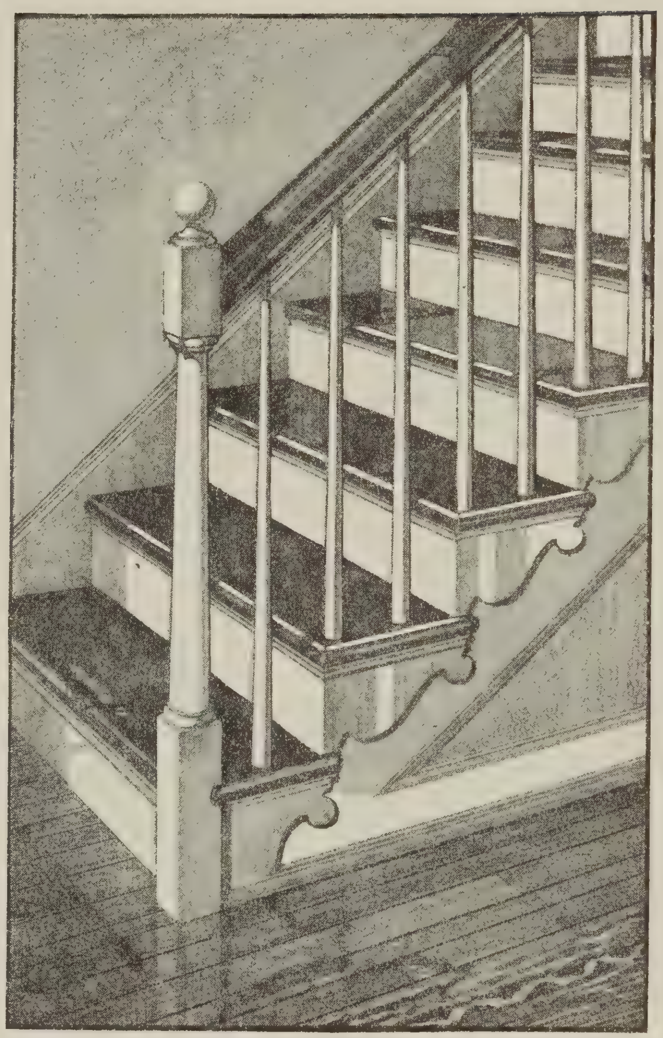
All Morgan stair parts furnished in Unselected Birch except Treads and Risers.

FOR COMPLETE MEASUREMENTS OF MORGAN STAIR PARTS SEE PAGES 116 AND 117

MORGAN STAIRWAYS



M-847



No. 859

The STOCKTON STAIRWAY

Neat and Trim!—a very charming new stairway created for Morgan by Kautzky, one of the nation's foremost architects and designers.

The suggested Starting Section shown above includes:

M-786 Starting Newel—M-820 Rail ($2\frac{1}{8}''$ x $2\frac{1}{8}''$)—M-840 Balusters

The NEWBURYPORT STAIRWAY

A gracefully designed stairway that will add much to the beauty of any home.

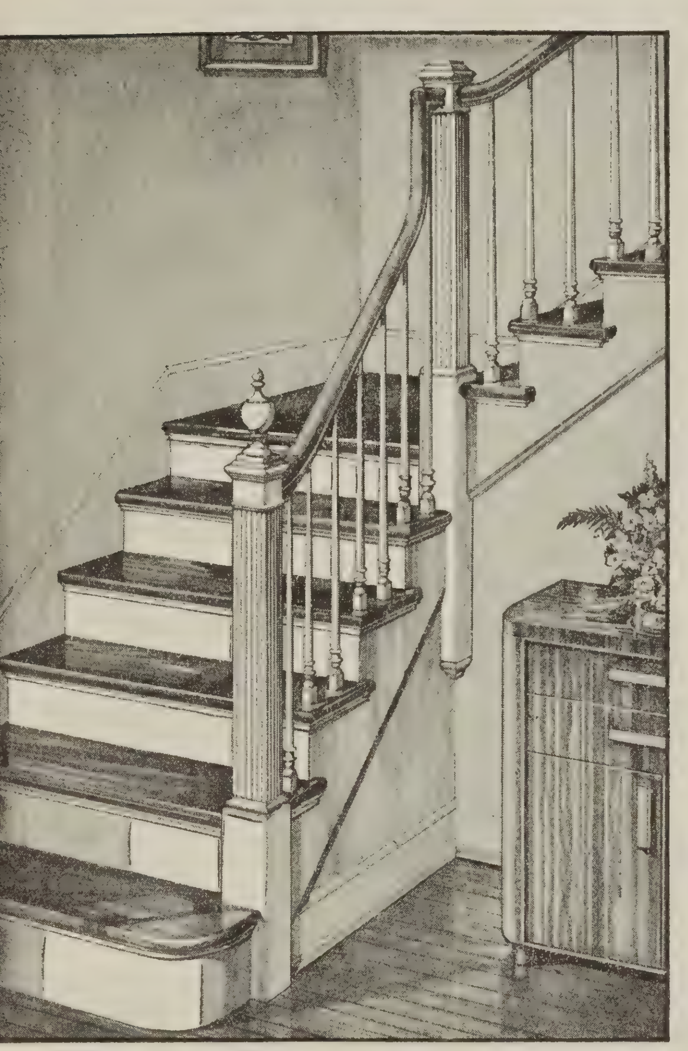
The suggested Starting Section shown above includes:

M-769 Starting Newel—M-777 Balusters—M-720 Rail ($2\frac{1}{4}''$ x $2\frac{3}{8}''$)
All parts furnished in Unselected Birch except Treads and Risers.

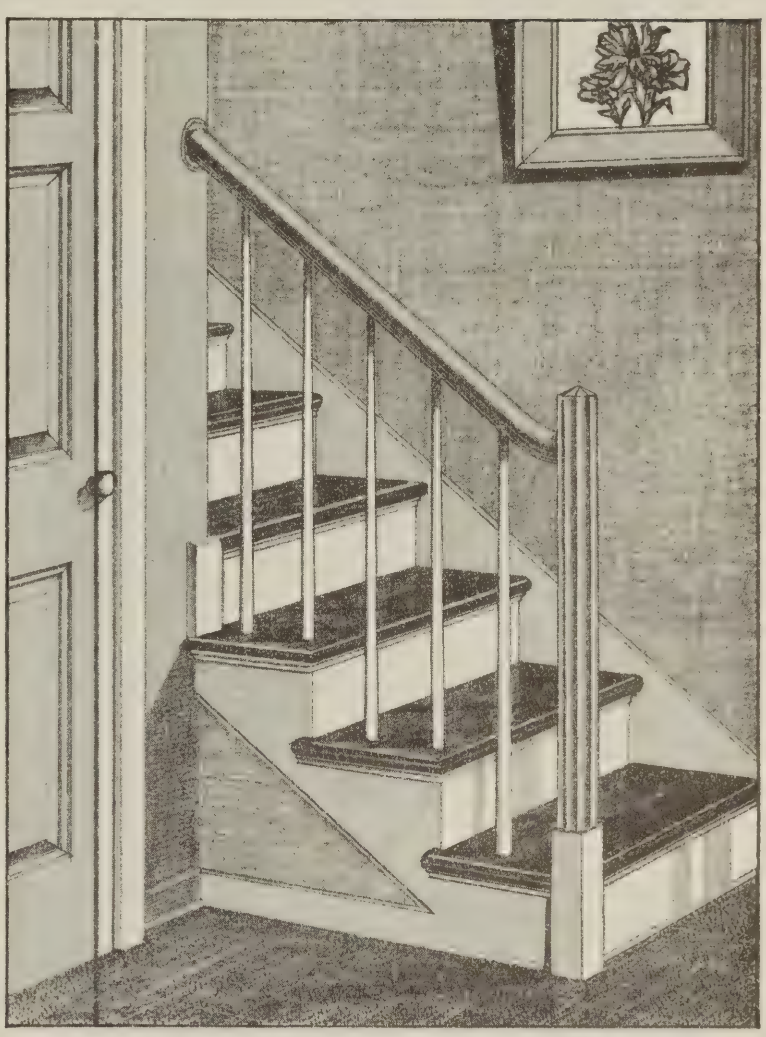
Your stair builder will tell you exactly what Morgan stair parts are required to meet your particular stair building problem.

FOR COMPLETE MEASUREMENTS OF MORGAN STAIR PARTS SEE PAGES 116 AND 117

MORGAN STAIRWAYS



M-851



M-846

The GUILFORD STAIRWAY

A very beautiful Georgian Stairway reproduced from an original in an old eighteenth century home in Baltimore, Maryland. The reeded Starting Newel capped with an urn of graceful scale is truly a work of art.

The suggested Starting Section shown above includes:

M-720 Rail (2¼" x 2⅜")—M-726 Easement—M-731 Gooseneck 2 Riser—M-896 Starting Step—M-884 Starting Newel—M-892 Balusters—M-891 Landing Newel.

The REGENCY STAIRWAY

A distinctive design. Ideal for use in any modern interior as well as homes of traditional styling.

The suggested Starting Section shown above includes:

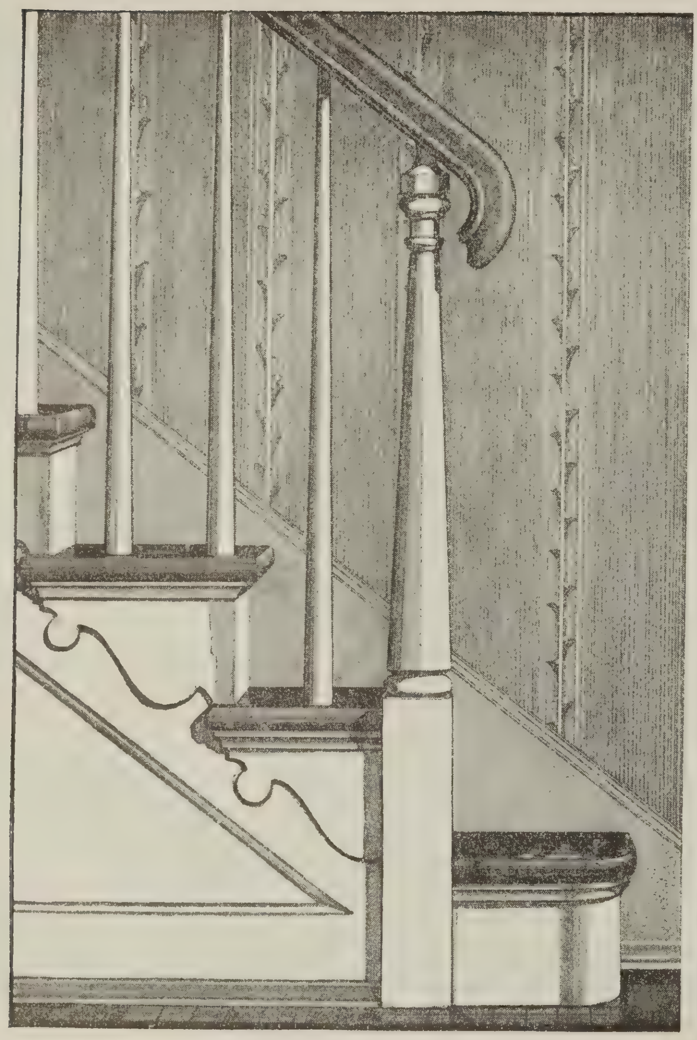
M-720 Rail (2¼" x 2⅜")—M-785 Starting Newel—M-726 Easement —M-777 Balusters

All parts furnished in Unselected Birch except Treads and Risers.

Your stair builder will tell you exactly what Morgan stair parts are required to meet your particular stair building problem.

FOR COMPLETE MEASUREMENTS OF MORGAN STAIR PARTS SEE PAGES 116 AND 117

MORGAN STAIRWAYS



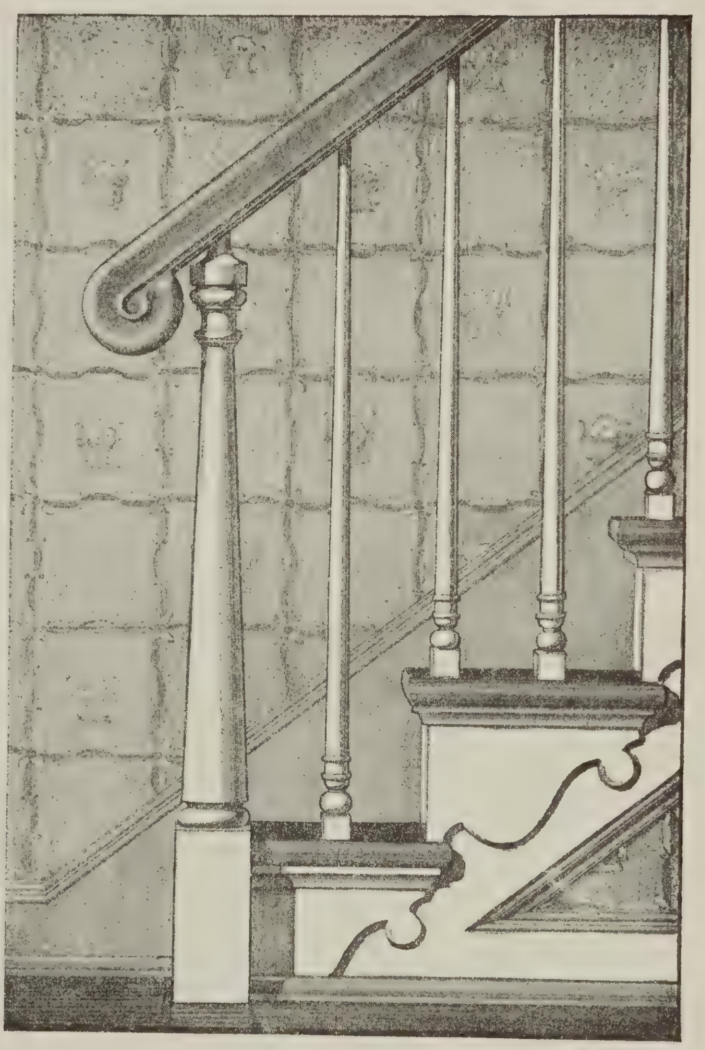
M-762

The ANDOVER STAIRWAY

A most attractive new stairway created by Morgan Designers. Adapted for use in modern as well as traditional homes.

The suggested Starting Section shown above includes:

M-720 Rail (2¼" x 2⅜")—M-751 Starting Rail Drop—M-896 Starting Step—M-754 Starting Newel—M-777 Balusters—M-882 Brackets.



M-761

The VICTORIA STAIRWAY

For TO-DAY'S home! . . . Modern in design yet admirably suited for use in both traditional and modern homes.

The suggested Starting Section shown above includes:

M-720 Rail (2¼" x 2⅜")—M-750 Vertical Volute—M-753 Starting Newel—M-892 Balusters—M-882 Brackets.

All parts furnished in Unselected Birch except Treads and Risers.

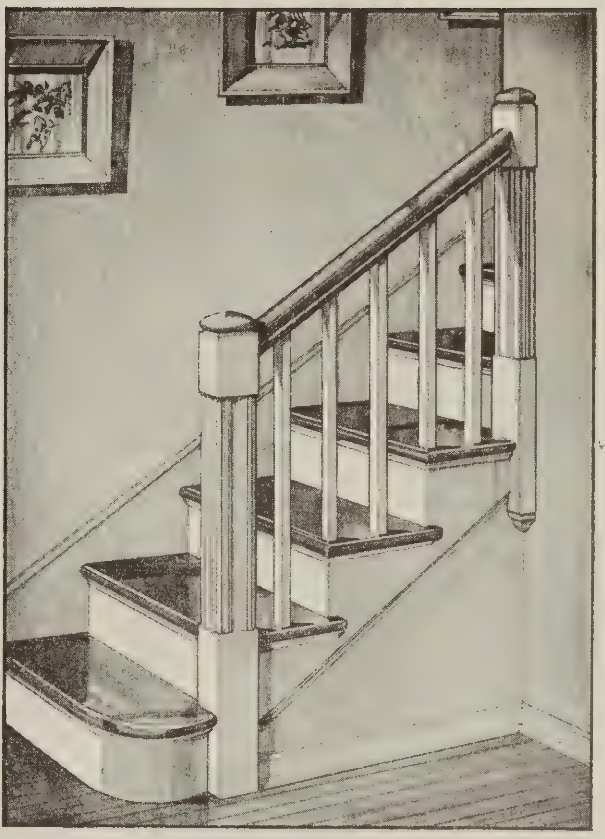
Your stair builder will tell you exactly what Morgan stair parts are required to meet your particular stair building problem.

FOR COMPLETE MEASUREMENTS OF MORGAN STAIR PARTS SEE PAGES 116 AND 117

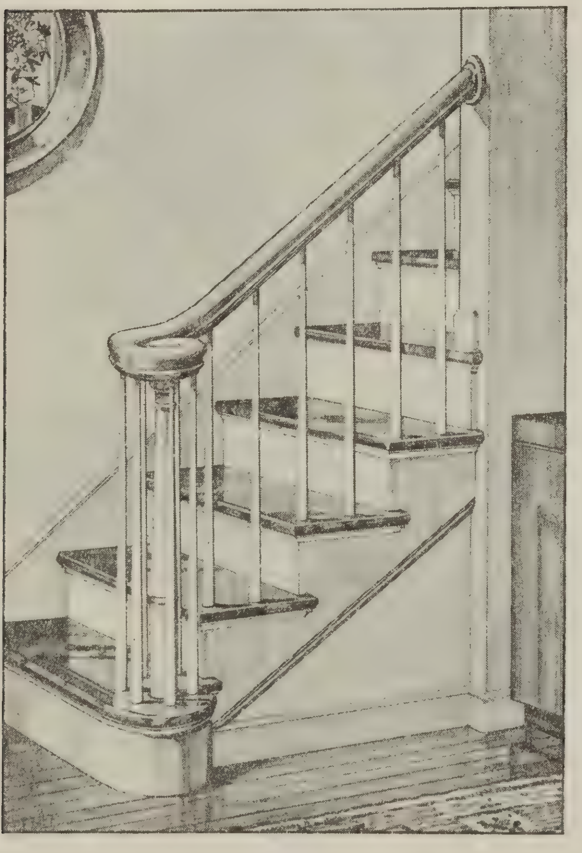
The COMBINATION OPEN *and* CLOSED STAIRWAY........

STYLED *by* MORGAN

Here are three excellent examples of combined closed and open stairways. The M-720 Rail in M-856A and M-859A Stairways dies in Rosette M-905A while in Stairway M-853A half Newel terminates the run. Note variations in Starting Steps, Starting Newels and Balusters.



M-853A



M-856A

M-856A Stairway includes: M-779V Starting Step—M-765 Starting Newel—M-722 Volute—M-720 Rail (2¼" x 2⅜") —M-777 Balusters—M-905A Rosette.

M-853A Stairway includes: M-896 Starting Step—M-885 Starting Newel—M-890 Landing Newel—Balusters 1⅛" S4S—M-720 Rail (2¼" x 2⅜").

M-859A Stairway includes: M-769 Starting Newel—M-894 Balusters—M-720 Rail (2¼" x 2⅜")—M-905A Rosette.

Mantel M-1450—M-1450A

A GEORGIAN MANTEL from the Old Dominion State

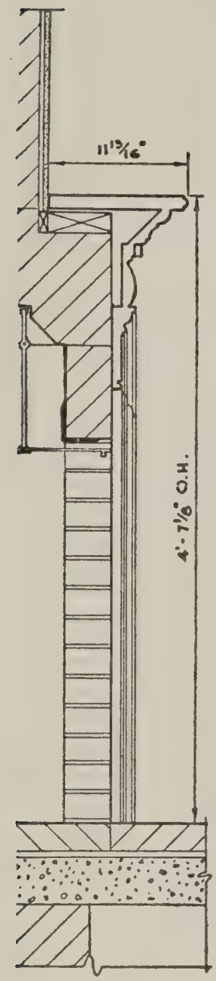
Typical of Design Used in Mount Vernon and Williamsburg

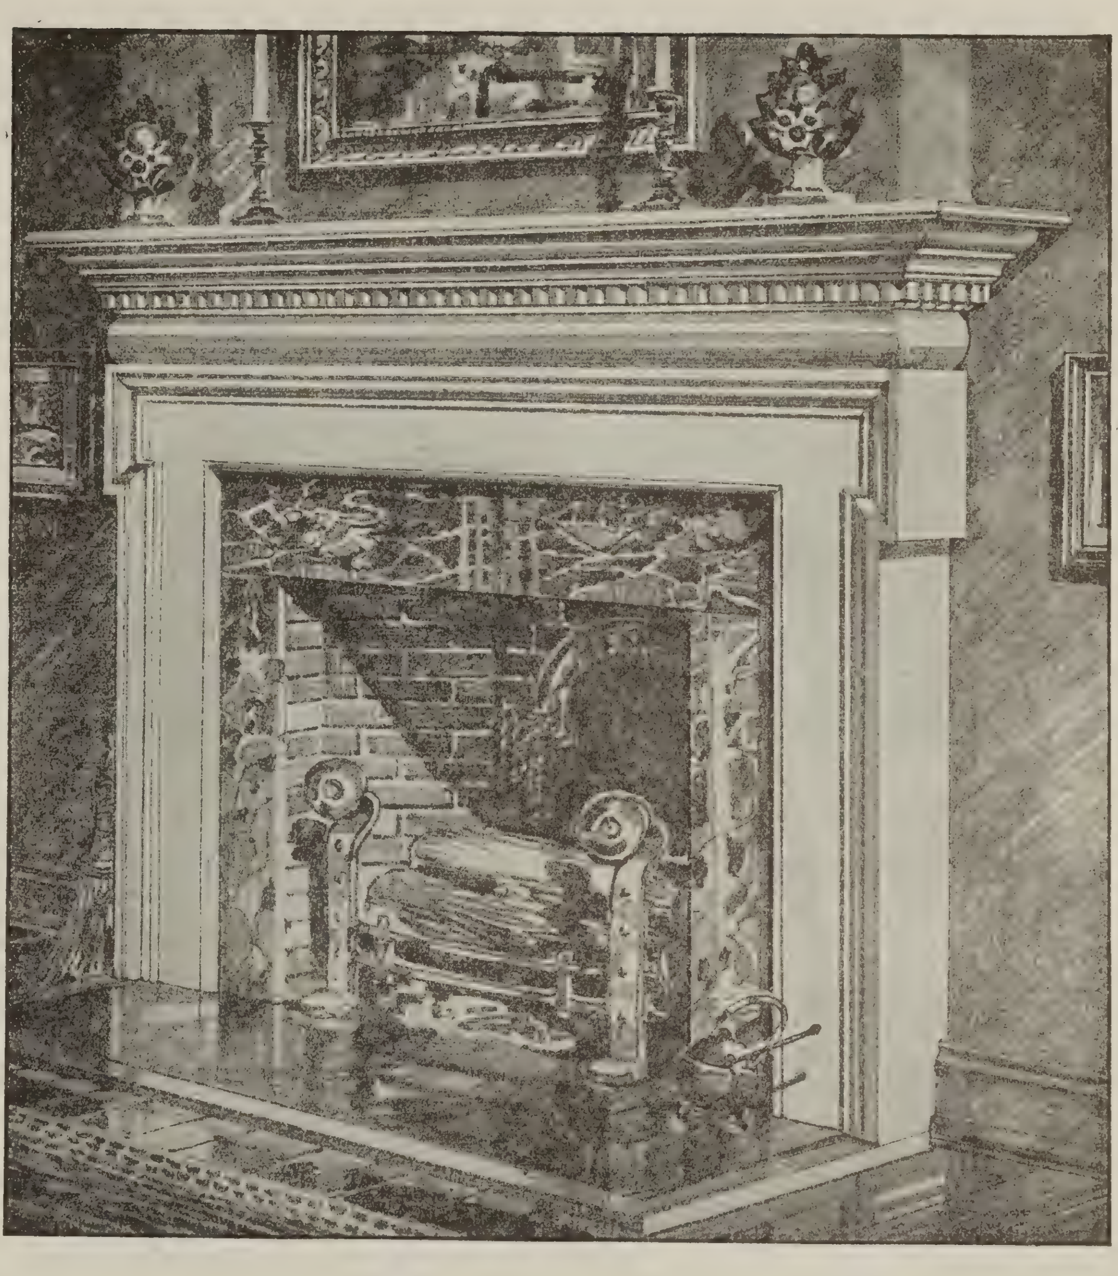
In many of the historic homes of old Virginia one may see the original detail of this charming Georgian Mantel. This design is an exact duplicate of a Mantel in the Shirley House, James River, Virginia. It is indeed a cheerful homelike design that will brighten any interior. Furnished in two sizes.

M-1450 No. 1 PINE. Length of Shelf 6'-5". Width of Shelf 6½". Width of Breast 5'-8". Height 4'-6⅛". Inside measurement 4'-2" x 3'-2". Set-up, one to a carton.
PRICE........★$53.44

M-1450A No. 1 PINE. Length of Shelf 5'-11". Width of Shelf 8". Width of Breast 5'-2". Height 4'-4⅛". Inside measurement 3'-8" x 3'-0". Set-up, one to a carton.
PRICE........★$54.72

★ Items also carried at WILMINGTON





Mantel M-1450C

The SHIRLEY HOUSE MANTEL

Made with 5½" Return to Fit Over a Maximum Brick Width of 5'-6"

MORGAN

This handsome Mantel is the same design as M-1450 except made with 5½" return to fit over brick fireplace. The return can be cut down to any size desired.

M-1450C No. 1 PINE. Length of Shelf 6'-7". Width of Shelf $11\frac{13}{16}$". Depth of Return 5½". Width of Breast 5'-10". Height 4'-7⅛". Inside measurement 4'-4" x 3'-3". Set-up, one to a crate.

PRICE........★$74.77

★ Items also carried at WILMINGTON

"STRAWBERRY HILL" FIREPLACE SURROUND—M-1451, M-1451A

Particularly Adapted for Use in Modern Interiors

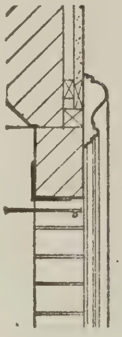
Nothing dresses up a brick or stone fireplace more than a well chosen wood surround or mantel. The "Strawberry Hill" with its beautifully moulded contour adds much to the beauty of any room in which it is used.

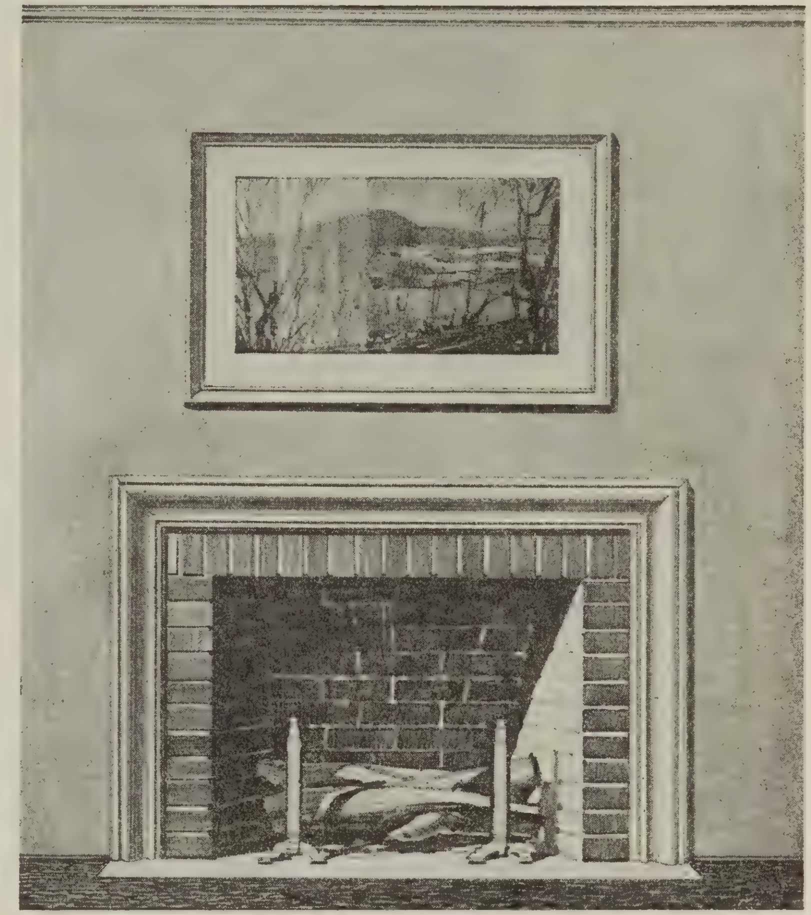
M-1451 No. 1 PINE. SURROUND (2" x 6"). For smaller fireplace opening, such as shown to the right. Surround is furnished in two 4'-0" pieces mitred one end and one piece 7'-0" mitred one end. K.D. Easy to mitre for any opening. One to a crate.

PRICE ....★$28.69

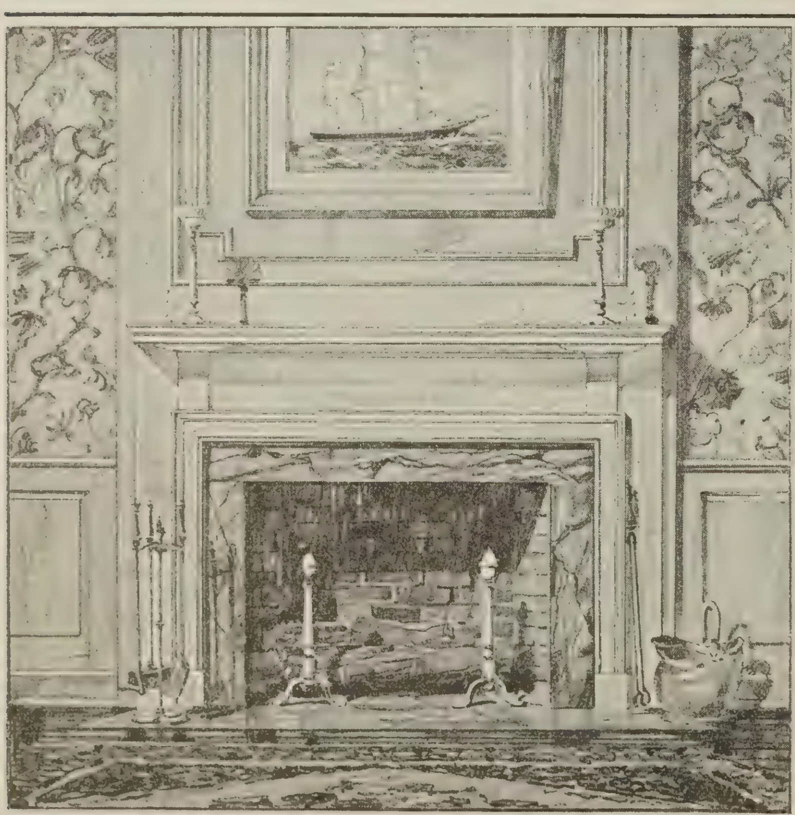
M-1451A No. 1 PINE. SURROUND (2" x 6"). For large fireplace opening. Surround is furnished in two 5'-6" pieces mitred one end and one 10' piece mitred one end. K-D, easy to mitre for any opening. One to a crate.

PRICE ....★$38.95





M-1451—M-1451A



M-1452—M-1452A

MANTEL OF THE WAYSIDE INN

Sudbury, Massachusetts

An Adaptation in Two Sizes

After the mantel in the Ball Room of Wayside Inn, Sudbury, Massachusetts, this Mantel has been adapted. All of the beauty of the original has been preserved to enhance the beauty of present-day home interiors.

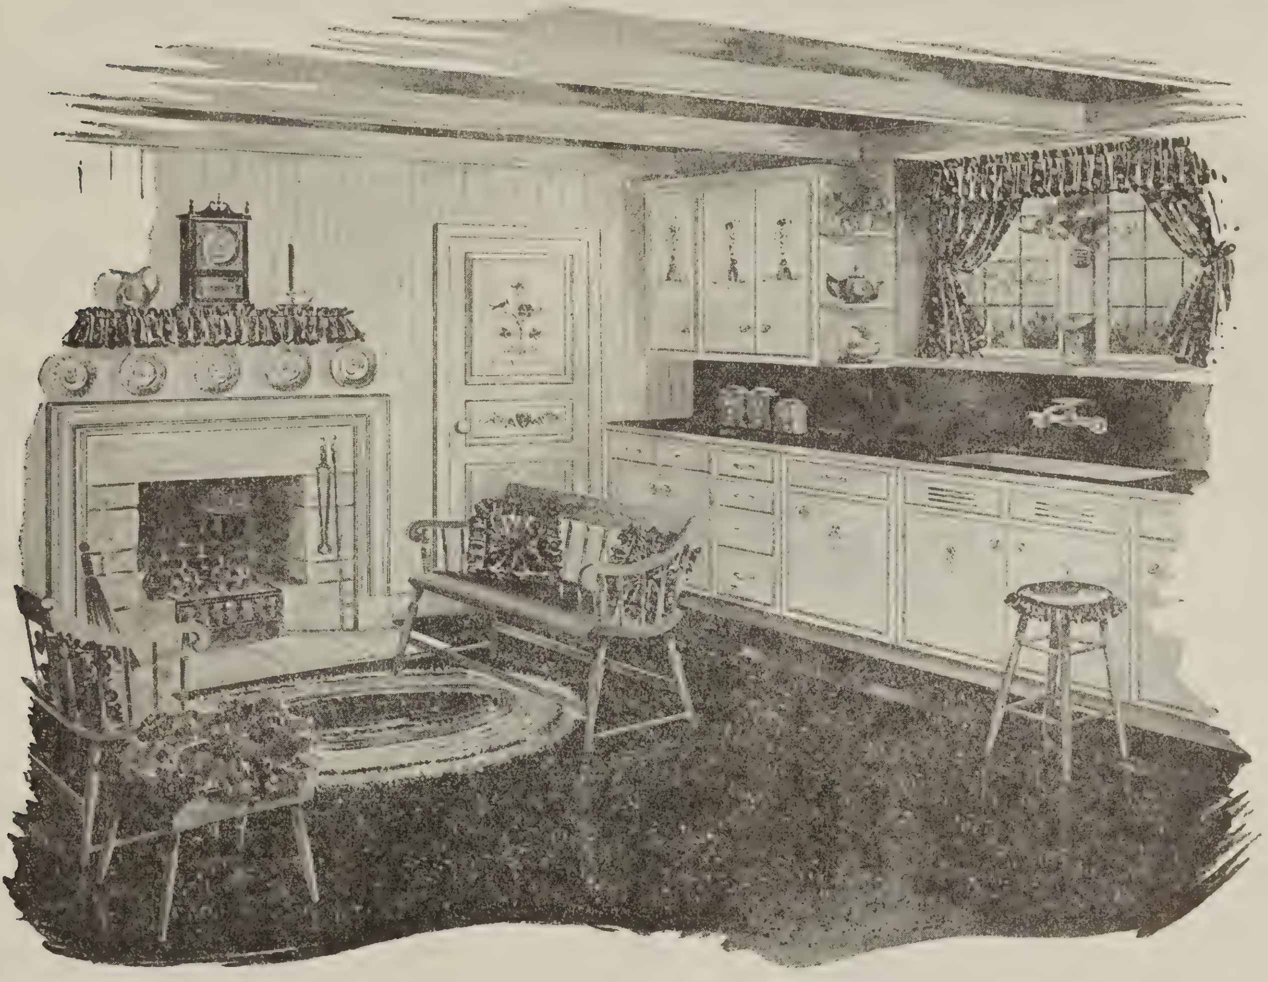
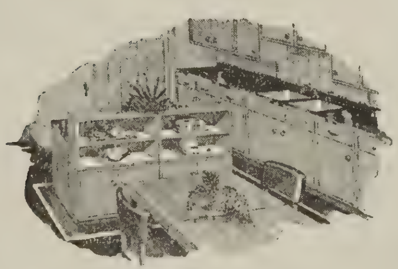
MORGAN KITCHEN CABINETS
for American Modern HOMES

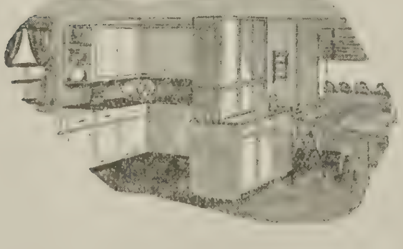


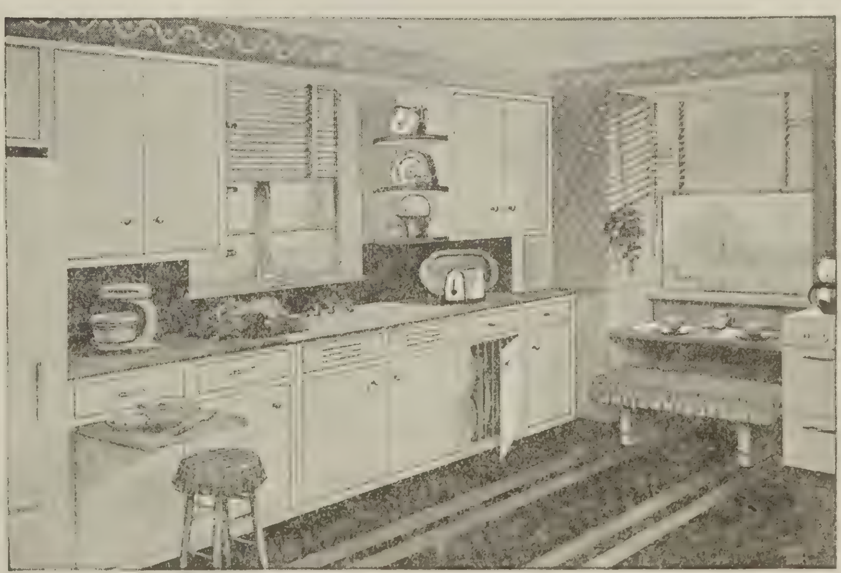
STOCK WOOD CABINETS
Styled for Today's Modern Homes . . .

Morgan Kitchen Cabinets are ideal for American Modern homes. Because Morgan Cabinets are superbly styled and precision made, they fit into any decorative scheme—can be finished natural, stained or painted in any color your heart desires. Created by noted Domestic Science authorities, Morgan Cabinets offer the maximum in convenience and efficiency in your kitchen.



Our complete assortment of sizes and designs shown on the following pages makes it possible to create up-to-the-minute kitchens of unlimited arrangement and beauty.





Here is Cabinet Work at its BEST!

FOR KITCHENS AND EVERY HOUSEHOLD USE

Every product looks good to its parents . . . but Morgan Cabinetwork looks good to everybody . . . Home owners, Architects, Builders, Dealers. And here's why. It is precision milled from properly kiln dried wood, straight, true, clear, sharp! It's packaged . . . carton packed to arrive in top condition, clean, dustless, unscuffed. And it's complete . . . hardware is there with every unit. Here's a typical example of how Morgan Cabinetwork arrives, assembles, and looks!

Morgan Cabinet Units are carefully inspected, carton packed and securely taped, for full protection.

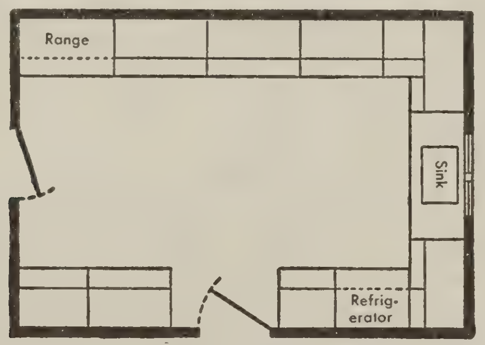
THE 4 BASIC KITCHEN LAYOUTS

REGARDLESS OF YOUR FAMILY NEEDS, MORGAN STOCK KITCHEN CABINETS WILL PRODUCE JUST THE IDEAL "MADE-TO-ORDER" ARRANGEMENT YOU REQUIRE

Basically there are four types of kitchens—U-Type, L-Type, Corridor Type and Sidewall or the one-wall Type. Typical examples of these are shown below. Although layouts and sizes vary, and the position of the doors, windows and radiators vary, the kitchen nevertheless is of one of these basic types.

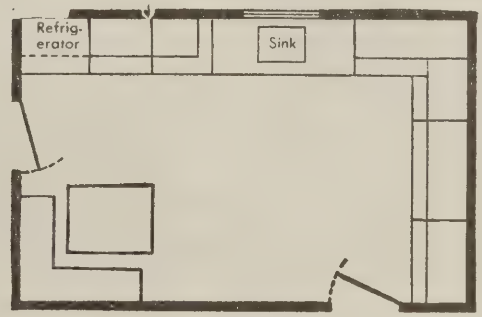
For maximum efficiency and ease of movement from one work center to the other, it is good planning to adopt as closely as possible one of these basic plans, taking advantage of all available space. The layouts shown on this page are planned for the utmost convenience. They are practical and incorporate every facility to make them well organized kitchens.

Regardless of the type or size of your kitchen, you may be sure Morgan Kitchen Cabinets will meet your every requirement. Morgan Cabinets are designed by leading kitchen research designers and harmonize with the latest in refrigerators, ranges and other kitchen equipment.



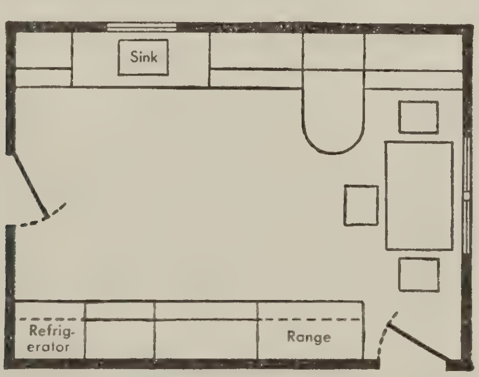
U-TYPE

A most efficient, compact arrangement. Everything is close at hand. Note order of work areas: refrigerator at service door where it should be, then follow the food preparation center and range close to dining room. Space between parallel work surfaces should be at least four feet.



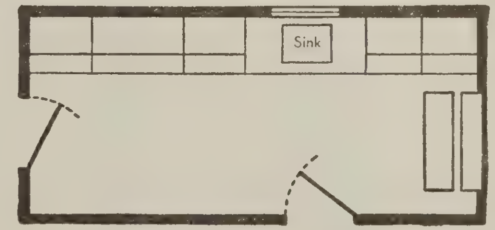
L-TYPE

This plan is used where two adjoining walls are available for cabinets and other kitchen equipment leaving other walls for door and window openings. This plan provides for a nook or luncheon bar.



CORRIDOR TYPE

Here cabinets and appliances are placed along two parallel walls with sink usually on one side and the refrigerator and range on the other.



SIDE-WALL TYPE

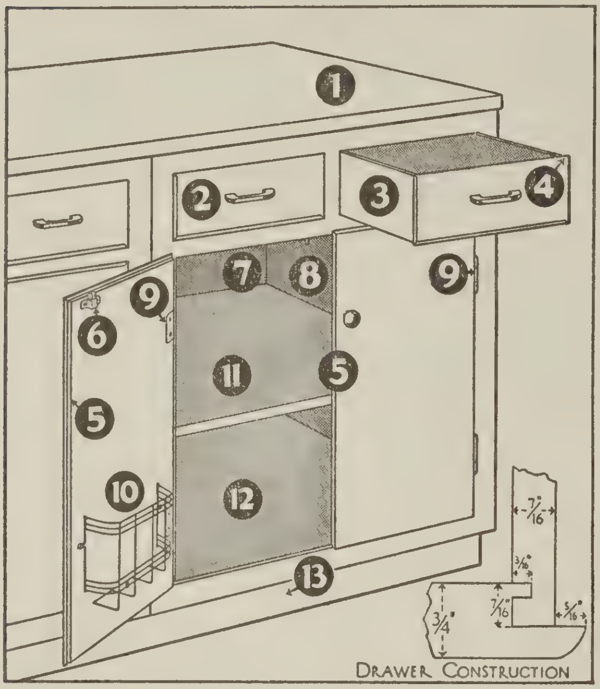
Used generally in small homes. All work centers on one wall in their proper order—"Storage," "Preparation," "Cooking" and "Serving."

Homemakers prefer Morgan cabinets because they are attractive and practical in every respect!

IMPORTANT SPECIFICATIONS

SUPERIOR QUALITY—STANDARD MORGAN CONSTRUCTION and WORKMANSHIP-

ALL ITEMS ARE FURNISHED IN THE WHITE (Not Painted)



DESIGNED TO MEET ALL THE REQUIREMENTS OF THE MOST CAREFULLY PLANNED KITCHEN—DUST-PROOF, FLEXIBLE, SPACE-SAVING

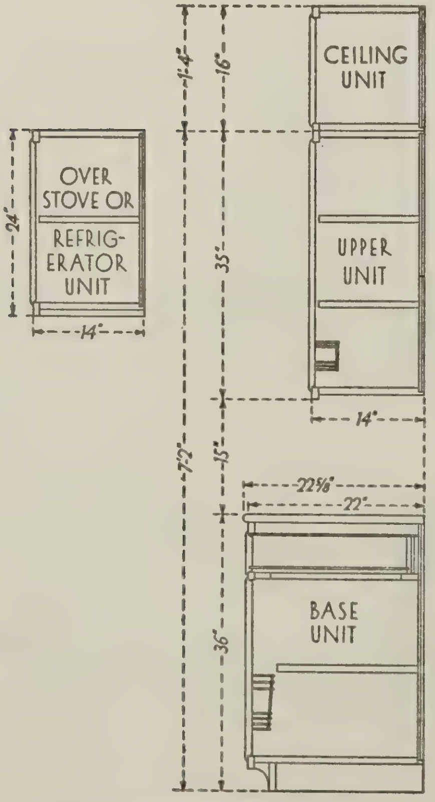
12. Bottom of cabinet heavy ¾" thickness.
13. Toe Space.
14. Drawer Slide Frame, Guides and Anti-Tipping Cleats included. (Not exposed.)
15. Front Frame ¾" thick, grooved to receive Tongued Ends.



MEASUREMENTS OF MORGAN KITCHEN CABINETS

POINTS OF SUPERIORITY IN MORGAN CABINETS

Planned by noted architectural and domestic science authorities.

Scientifically conceived to render greatest efficiency in kitchen layout—time-saving—toil-saving!

Fit any space—meet any requirement. Hundreds of practical assemblies may easily and quickly be produced with Morgan Kitchen Cabinet units.

Strictly modern in design—exposed surfaces are all flat, dust-proof, sanitary, easy to keep clean. Morgan Cabinets harmonize with all of the latest modern designs, ranges, refrigerators and other kitchen utilities.

DOORS

Doors are full ¾" thick with both faces 3-ply and are guaranteed not to warp, twist or buckle. Doors and drawers have lip fronts providing added security against dust and vermin.

Morgan doors are very light and easy on hinges. They will not sag. The beveled rabbet on Morgan doors will prevent binding.

Basswood faces.

DRAWERS

Morgan drawers have ¾" sliding frame under the drawer with guides on each side nailed into the side of the body so that they will have easy action at all times. Drawer Slide Frame is put together at factory.

HARDWARE

Special, improved tarnish proof Chromium hardware furnished for exterior, and Cadmium plated parts for interior of cabinets.

Morgan drawer pull is neat and attractive. Screws will not loosen as they are fastened through the drawer from the back. Morgan door knobs are sturdier, more attractive, and more solid as they are attached to the door from the back.

BODY OF CABINET

Morgan front frame is mortised and tenoned and glued together, whereas the frame in many cabinets is nailed only. Top and bottom end pieces of the body of some cabinets are made of Plywood, while the ends of Morgan Cabinets are made of solid wood. Morgan front frame is grooved so that the end pieces that are tongued fit together perfectly.

In many cabinets ¼" panels are used for the bottom shelf, whereas Morgan shelves are solid.

Space arrangements in all Morgan Cabinets were worked out by domestic science authorities and consequently assure minimum waste of motion and time. Utensils are always where they should be—always within easy reach and never in the way.

Morgan Kitchen Cabinets are made so regular stock sinks and drainboards of Porcelain, Tile, Monel Metal, Stainless Steel, Bakelite, Formica or plain wood fit perfectly.

Furnished unpainted to enable the painter to finish cabinets to harmonize with the color scheme of the kitchen. Already painted cabinets often clash with other colors in the kitchen.

Continuous toe space at base of cabinets is provided for working comfort and to keep front of base free from mop stains. (No legs to catch dust.) Metal bread and cake drawers and flour container of special heavy sheet tin. Metal flour bins are of AAA charcoal tin.

Morgan Kitchen Cabinets can be easily and quickly put together. All pieces are clearly marked so that "A" fits into "A"; "B" into "B"" etc. Furthermore, each carton contains full direction sheets.

MORGAN SINK CABINETS

IN THE THREE MOST POPULAR SIZES

DE LUXE FORMICA OR TEXTOLITE SINKS—CABINETS FURNISHED K-D, HARDWARE INCLUDED, CARTON PACKED

Here are the new Morgan Sink Units in the three most popular sizes and the most practical layouts. Planned for the utmost convenience to the homemaker. Its features are many—correct working height (3'-¼"); continuous toe space; Chromium hardware of modern design, generous storage space. These cabinets are actually made 3'-1⅞" high to accommodate Porcelain Sinks with Roll Tops and must be cut off at top to proper height when using Flat Top Sinks.

These well made cabinets are of the same layout as the rest of the Morgan Line of Kitchen Units. When using one of these Sink Cabinets with other Morgan Cabinets you can, if desired, use M-6092 Base Extension Strip to line up cabinets so that the fronts will be uniform.

Priced within the reach of all—Morgan Sink Units because of their excellent quality and workmanship represent values that are outstanding. When planning your Morgan kitchen be sure to include one of these units. Available at your local lumber dealer.

PROTECTION PRODUCTS for WOOD and MASONRY

WOODLIFE

The Original
WATER REPELLENT PRESERVATIVE
CONTAINING
PENTAchlorophenol

- **WOODLIFE** is a penetrating *water repellent* preservative of the highest quality with proven value by its widespread use throughout the Lumber and Woodworking Industry since 1936.
- **WOODLIFE** contains PENTAchlorophenol, the widely advertised preservative chemical for wood. In addition, it is fortified by a blend of tetrachlorophenol and 2-chlororthophenylphenol to give wood increased immunity against the variety of fungi that cause decay and stain.
- **WOODLIFE** does not discolor wood—has no lasting odor—is paintable—may be used anywhere around the home or farm.
- **WOODLIFE** meets all requirements of the N. W. M. A. Standards for Millwork Preservatives. It also conforms to many specifications of the Federal Government and Armed Services.

Stocked at BALTIMORE and WILMINGTON in
PINTS—QUARTS—1 and 5 GALLON CANS—55 GALLON DRUMS

CLEAR TOXIC
WOODHEALTH
PRESERVATIVE
★ ★ ★

TOXIC WOOD PRESERVATIVE

- **WOODHEALTH** is a penetrating wood preservative especially designed for use where color, odor or interference with painting would be objectionable—but where *WATER REPELLENCY* is *not* needed.

NOTE—FOR COMPLETE PRESERVATION INCLUDING WATER REPELLENCY, USE WOODLIFE.

- **WOODHEALTH** contains the widely advertised PENTAchlorophenol as well as a blend of tetrachlorophenol and 2-chlororthophenylphenol. In addition, it contains orthodichlorobenzene to provide added killing power against termites.
- **WOODHEALTH** is both a Wood Preservative and a Parasiticide. It is highly effective against chicken red mites and animal ticks in poultry houses and barns.
- **WOODHEALTH** is death to insects that attack wood. TERMITES, LYCTUS, BEETLES, CARPENTER ANTS—and protects against further attacks.

Stocked at WILMINGTON in 1 Gallon Cans

Invisible
Rainchek
"Black Label"

A Transparent Masonry Water Repellent

THE NEW SILICONE-BASE WATER REPELLENT

for

BRICK—STUCCO—CONCRETE BLOCKS—CINDER BLOCKS—CONCRETE WALLS, FLOORS—TILE (Unglazed)—STONE—ARTIFICIAL STONE—ASBESTOS SHINGLES

- **RAINCHEK** is a clear penetrating liquid containing silicones. It provides lasting protection against water seepage and moisture troubles in all types of masonry.
- **RAINCHEK** is equally effective for inside or outside application. It is not affected by heat, cold, sun or weather exposure.
- **RAINCHEK** is easy to apply—by brushing—or spraying with a low pressure gun. One coat is usually sufficient to give full protection.

Stocked at WILMINGTON in 1 and 5 Gallon Cans

P.A.R.
PROTECTS ALL REDWOOD

A Penetrating Water Repellent Stain For Redwood

P. A. R. is more than a stain—it is also a highly effective water repellent which protects the wood against—

DISCOLORATION—GRAIN RAISING—SWELLING, SHRINKING—CHECKING and WARPING.

P. A. R. renews and protects the fine rich appearance of Redwood—giving a non-glossy finish. Ideal for Siding, Trim, Shingles, Outdoor Furniture, Fences and other Redwood Products.

NOTE—WHERE PROTECTION OF WOOD IS DESIRED WITHOUT COLOR—USE WOODLIFE.

Complete Application Directions are printed on the P. A. R. label.

Stocked at BALTIMORE and WILMINGTON in Quarts and
